

BUSINESS SPECIALS.

Under this head business notices inserted at ten cents per line. Right words to the line. Give you good trades in fishing tackle at Noyes Drug Store.

Bargains in hammocks at Noyes Drug Store. Norway Grange gives open air dance at its new hall, Friday evening this week.

NORWAY AND VICINITY.

The Epworth League of the Methodist church will hold a lawn party next Wednesday evening at the parsonage.

Mr. and Mrs. M. H. Merilam went up to their farm the first of the week. Mrs. Merilam has spent several weeks at her cottage at Falmouth.

Let us make price on your job printing. We can give you good work at reasonable prices. It will cost you nothing to get our prices.

C. A. Frost finished the back hall in W. S. Stearns' house last week. Finish of Southern pine. J. F. Hutchins is doing the varnishing and painting.

Mrs. Mary W. Hayden who has been visiting her sister, Mrs. Dora Tower, for the past month returned to her home in West Bridgewater, Mass., Thursday morning.

Grand View, C. F. Ridlon's cottage by Lake Penesseewassee, has been leased for the season to George Buckmaster of Elizabeth, N. J. Vivian Miller will be with the party.

James N. Fawcett submitted to an operation for gall stones at St. Barnabas hospital, Portland, Tuesday. Two large stones were removed. Mr. Fawcett's condition is favorable for a good recovery.

Samuel Webber from Massachusetts, formerly of Oxford is visiting friends and relatives in town. Mr. Webber is in the moving picture business. Before visiting Norway he visited his sister at Milwaukee, Wis.

Rev. J. A. Seitz of Cosobob Conn., was operated on for stricture last Saturday. He is at Dr. Bull's private sanitarium, 33 East 33rd Street New York and is getting on nicely, so writes his son, D. C. Seitz.

L. I. Gilbert has some of the finest sweet peas both in quantity, quality or size in his garden on Beal's Street that have been noticed this year. The vines stand about five feet high and are literally covered with blossoms of all shades.

Mrs. Randall J. Condon of Helena, Montana, is the guest of Col. and Mrs. Eugene Smith. Mrs. Condon comes from Richmond, where with her husband and daughter Katherine, she is a guest of her mother, Mrs. E. T. C. Sturtevant.

A meeting of the stockholders of the Norway Water Company has been called at the office of the Company, Friday afternoon at 4 o'clock, to see if the stockholders will vote to sell so much of the plant as lies in the town of Paris to the South Paris Village Corporation, and fix the price therefor.

While digging the cellar for the new cement house erected by George Cullinan on Orchard street, the workmen found a boiling spring. The Cullinan house is 38x23 and is built bungalow style, with all the rooms on one floor. The blocks are made like bricks first, only larger, and the foundation of the house is of solid concrete.

Brown tails will kill Maine's summer business unless Maine watches out. No one wants to pay good money to see the nude trees, suffering from having their leaves and "hairs" gnawed out, and to be crawled over by disgusting worms, which will further leave human life covered with brown-tail itch.

Sunday, the 25th of July, the reign of dog days began and till Sept. 5th, the great suns of Aroturus, Vega and Antares are beautiful lights in the heavens. Vega is situated southward of the great Northern Cross, whilst Aroturus glitters between Betenash, the end sun of the dipper, and the bright sun Spica at the bottom of the constellation Virgo; Antares and Scorpio.

L. M. Felch, wife and son of Houlton have arrived here. Mr. Felch is the Superintendent of the Norway and Watford schools for the coming year. He starts in his official work the first of August. He has been teaching on Main St., the A. R. Clark house opposite the Congregational church and is expecting to get located shortly. He will have desk room in the law office of C. P. Barnes.

B. F. Faunce, wife and children of Pittsburg, Pa., arrived here, Monday. On the same train from Portland, Hugh Pendexter, wife and son of Rochester, N. Y., came with them. They are visiting their parents, Mr. and Mrs. F. W. Faunce of Pleasant Street, in Watford, or "Buster" as we used to call him, is assistant to the chief engineer of the Carnegie Steel Co. of that city, which position he has held for the past five years. He graduated from the Maine University, class of '01, and immediately after graduating went to Harrisburg, Pa., as mechanical draftsman and has been steadily advanced until he attained the position he now holds. For nearly two years he has been working on machinery to make compressed air wheels and the machine is now in successful operation. This is the first vacation he has taken in two years, having been away from Norway three years.

Mr. Faunce is one of the successful, self-made men who have left the Pine Tree State. He married Emily Davies of Steelton, Pa., seven years ago and they have two children, both boys, Benjamin F. and David D., four and six years old. He owns a comfortable residence in Edgewood Park, just out of the city of Pittsburg. He thinks he will have a 30 days' vacation but is liable to be "called in" at any time.

Interest to Water Drinkers.

The following is a letter in connection with the analysis of the water furnished by the Norway Water Co. to its patrons: "The analysis of the sample of water from your public supply, sent to me on the 19th instant, shows the water to be in its usual first-class condition. There is no evidence, either chemical or bacterial, of sewage pollution of this water. The water is in almost exactly the same condition as when examined in the spring. In its present condition the water would be regarded as a first-class one to use for drinking, or for any domestic use."

Subscription Rates.

2 months, 25 cents.
3 months, 35 cents.
4 months, 45 cents.
5 months, 55 cents.
6 months, 65 cents.

NUMBER 31.

Carefully Read, Consider and Understand.

All payments on subscriptions are shown by the date printed on the address label.

Thus "Jan 29" signifies that the paper is paid for until Jan. 1, 1909. "July 1" to July 1, 1910, and so of other months and years. These characters: 1, 5, 7, 1, 1, after the name on the address label indicates that the paper is to be discontinued on expiration of payment; otherwise we shall continue to send it for one year.

We wish to do whatever is desired by readers, and will discontinue your paper promptly when your time is out, if you so request. If, however, you continue to receive it, we shall look to you for payment at the regular advertised price.

Only one year's credit can be given and keep within the rulings of the postoffice.

Norway Municipal Court.

Monday, July 20, State vs. H. Leland Hillier of South Paris, larceny, pleaded guilty and sentenced to State School for Boys during his minority.

Wednesday, July 22, State on complaint of Charles S. Bacon vs. Annie McLeod, who was sentenced to the State School for Boys during her minority.

Something New Under the Moon.

Thursday morning at a little past three the people along Main street, Norway saw a wonderful sight. The gasoline train of the Linn dog show, which had been stationed at Whitman Street for three nights stand, Monday Tuesday and Wednesday, were enroute for Oxford.

The principal feature of the caravan is a car about the size of a trolley car. This has a room in front for the driver, and the rest of the car is a room in which Mr. and Mrs. Linn live, and where the meals are furnished for all connected with the show.

The car is driven by a fifty-horse power, four-cylinder gasoline motor. There are two pairs of ordinary heavy wheels in front, the front pair being used for steering. Under the rear of the car is one of the trucks such as are used in the Lombard steam log hauler. The bearing surface on each side of the truck is a sort of endless chain about twelve inches wide, four feet and a half of which is on the ground at one time. Inside this chain sprocket wheels work, to which the power is applied.

Back of the car are attached, tandem, four ordinary heavy wagons, loaded with the varied impedimenta of the concern.

A dynamo under the car, run by the motor, makes electric light for the evening show.

The car is about six inches wide, four feet and a half of which is on the ground at one time. Inside this chain sprocket wheels work, to which the power is applied.

THE ONLY WAY

Many Norway Citizens Have Discovered It.

Just what to do when the kidneys are affected, is a question that concerns both young and old. Weak kidneys neglected in childhood lead to life-long suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys and cures these troubles. Doan's Kidney Pills owe their world-wide fame to the fact that they cure sick kidneys and cure them permanently. Follow the example of this Norway citizen and you will be convinced that this is so.

C. C. Dearborn living on Pleasant street, South Paris, Me., says: "I have used Doan's Kidney Pills and think so highly of them that I am perfectly willing to give my name to be published in their favor. I only hope it may be the means of bringing relief to some one suffering as I have suffered. For a long time I was troubled by a dull pain in my back. My kidneys did not act in a proper manner and the secretions were very unnatural in appearance. I procured Doan's Kidney Pills from F. A. Shurtleff & Co.'s drug store, used them in accordance with the directions, and they helped me a great deal. I am going to continue using this remedy and hope to be permanently cured." 31-32 For sale by all dealers. Price 50 cts.

Foster-Milburn Co., Buffalo, New York sole agents for the United States. Remember the name—Doan's—and no other.

A. W. Walker & Son, SOUTH PARIS, ME.

Stop water hammer and noise in pipes, also save wear of faucets and valves, by using pressure reducers. Makes it run like spring-water. For sale and installed by

"To-Memory Dear."

The snows of yesterday are gone, But life will come again. The blooms of yesterday are dead, But life will come again. We ask for what has gone for good Amid the dizzy whirl. And for the sign which we know The old time little girl.

Now from the cradle to the grave, To hold their hats upon their heads They bristle thick with spears. And so we ask: Where has she gone, The girl before the pin?

Who were to meet her hat on tight, Elastic mesh best? To Keep Eggs Fresh.

Simple Method of Preserving Them for at Least Eight Months. Fresh eggs in cold storage at 34 degrees Fahrenheit undergo little if any change, for this temperature is sufficient to limit the activities and prevent the growth of the more common bacteria.

The problem of preserving eggs by excluding air has brought forth numerous methods. According to American and German investigators several years ago conducted a series of tests, keeping the eggs for about eight months in some twenty different ways, and found that:

1. Wrapped in paper, 80 per cent. bad. 2. Packed in bran or coated with paraffine, 70 per cent. bad. 3. Immersed in sol. salicylic acid, 50 per cent. bad. 4. Coated with shellac or collodion, 40 per cent. bad. 5. Packed in wood shavings, 20 per cent. bad.

6. Coated with vaseline or immersed in a solution of water glass or lime water, none bad.

From these experiments, as well as many others, it has been found that a solution of water glass offers about the best method of preserving eggs, aside from cold storage. Water glass is the common name for potassium or sodium silicate, and is obtained in the shops in the form of a thick liquid something like glycerine. One part of this to nine of sterile water makes a preserving fluid of the proper strength.

The eggs should be packed in a clean, sweet vessel, and the solution poured over them until they are well covered. Preserved in this way in cool places, they will keep for months and often cannot be distinguished in appearance from the fresh article. It is generally conceded that they lack flavor of the new laid eggs, but are in no way inferior in nutritive value.

EAST HEBRON. Mrs. W. H. Berry has been ill with tonsillitis.

Clinton, the six-year-old son of Charles Keen, is suffering with a broken arm received by falling from a load of hay.

Mr. and Mrs. Charles Conant gave a wedding reception at the Grange Hall. The entertainment consisted of music and readings by Ernest Packard of Hebron Station. Mr. and Mrs. Conant received many useful and beautiful presents.

Rain for Fifty Days. Unless it rains on St. Swithin's day, there will be no rain for forty days.

And as it rained this year on the day set apart to the memory of this good old saint we may look for plenty of moisture during the rest of July and August.

St. Swithin was an English ecclesiastic who died July 2, 1762. A century later he was canonized and as his place of burial was, according to his own request, in the yard of the cathedral at Winchester, the body was exhumed July 15, with the intention of giving it a more honorable burial inside the church. But violent rains set in and for forty days the burial was delayed, giving rise to the popular belief, in England especially, that it rains on the 15th of July it will rain every day for forty days.

Her Request. A lady complained to her milkman of the quality of milk he sold her. "Well, mum," said the milkman, "the cows don't get enough grass feed this time of year. Why, then, cows are just as sorry about it as I am. I often see 'em cryin'—regular cryin'—mum—because they feel as how their milk don't do 'em credit. Don't you believe it, mum?" "Oh, yes, I believe it," responded his customer, "but I wish in the future you'd see that they don't drop their tears into our can."

The people who think that the State of Maine isn't doing some splendid work in behalf of good roads do not read the advertising columns of the daily and weekly publications. There are but few in this State at the present time which do not contain one or more advertisements inviting bids for state road construction along the most approved lines.

STATE OF OHIO, CITY OF TOLEDO, Lucas County. Frank J. Cheney declares that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State of Ohio, and that he has agreed to pay the sum of ONE HUNDRED DOLLARS for each and every case of diphtheria that cannot be cured by the use of Hall's Family Pills.

FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 24th day of December, A. D. 1909.

A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 10c. Take Hall's Family Pills for constipation.

The Real Indispensable Girl.

One of the worst mistakes a woman can make when engaged in a business career is to think she is indispensable. The fact is, no one is indispensable, no matter how much it may hurt to acknowledge that truth even to one's self. It is never a prudent thing to count on one's employer believing that another cannot be found who will do the work just as well.

There are many little ways in which the clever girl may make herself useful, outside of her regular duties that will make her of value.

Of course, one may cause a void, make one's absence felt for a time, but in the end that will be filled, and the work done better than you ever could or would do it. For this reason, if for no other, it is not wise to slight your work or do any but the best work of which you are capable.

She who is quick to grasp an opportunity to be of service, who is at her office before the required hour, who remains after hours, of her own accord, to complete a day's work, is the girl who will be in the eye of her employer for an advancement.

The girl who will win the most and best for herself is the one who makes her employer's interest hers and who gives to his service the best she has at her disposal.

Not only must one's work be well and intelligently done, but it must include exactness of detail that must not be overlooked.

The general appearance of a woman in regard to trimness and neatness must not be overlooked and every woman is judged by her carriage, her personal manners and the neatness of her wearing apparel.

It is not necessary for one to dress beyond her means, as many misguided girls do, to present a good appearance. Elaborate and expensive clothes are out of place in a business office or store and in this day, pretty plain suits and gowns of good material and stylish cut may be had at reasonable prices.

Last, but not least, personality counts a great deal in the success of a business life.

Meet people with a smile and an affable, courteous and interested manner, for indifference never wins friends or business.

There is always a welcome for the woman with the cheerful word and the sunny smile and, for the one whose work is well done.

The Pole Star. Ursa Major and Ursa Minor are known also as the Great and the Lesser Wain. It is curious to note that the larger constellation was given the figure of the bear by the Arabs and by the Iroquois red men. The same figures are ordinarily fanciful, and the identity of the names in this instance affords food for speculation. Homer uses both bear and wain (wagon) in his references to these stars. It is evident that the name bear was a translation from some original and was changed as the constellation is called in Sanskrit riksha, a word that in different genders means both a bear and a star. Of course the polar star in the tail of Ursa Minor is the constellation's point of glory. In this case we may say fairly that the tail wags the dog, because the group of stars was once called the dog's tail, or cynosure. From that word we have our word cynosure, that toward which all eyes turn, as to the dog's tail for sight of the pole star.

The Value of a Potato Digger. Farmers raising four acres or more of potatoes can well afford a potato digger, but when you buy a digger get a good one. Get a digger that will go down into the ground and bring the potatoes to the surface and lay them out in a narrow row ready to sort and put in the crates. And don't be frightened out because some one says they are hard on horses, but instead put on four horses and set the digger a notch deeper. It will pay just in pulverizing the ground.

If you have any quick grass it will shake the earth from the roots and leave the quack on top ready for burning. A good digger gets every potato, and it gets them quickly, but it takes power to pull it just the same as a gang plow takes power. You can't do anything thoroughly without either a push or a pull. Potatoes make a paying crop if you grow them in quantities and grow them regularly every year, but you need machinery to handle them for hand labor is too expensive.

Rather a severe setback was given the defensive tactics of the liquor dealers in a Maine town when the judge of the municipal court and the assessor in a case where the prosecution did not produce seized liquor in court. The case was against a place where the liquor was kept in a room barricaded with iron and heavy plank and the cranks passed through a small opening to the bar.

Whenever the place was raided the man in the "fort" has been able to break bottles and spill the stock before he could be reached. The police raided the place and the stock was spilled as usual. No liquor was seized, but upon the evidence of the police that there was every apparent indication that it had been spilled the respondents were given a fine and jail sentence.

The First Maine Heavy Artillery Regimental Association will hold its 33d reunion at Carmel on Wednesday, August 18, 1909. The Bangor and Aroostook, the Maine Central and the Panobscot Central railroads will sell round-trip tickets to Carmel at reduced rates. Trains leave Bangor for Carmel at 6:45 a. m. The local G. A. R. Post with band will meet incoming trains at 7:15 and 8:20 a. m., and escort the visitors to the town hall. Address of welcome at 10 a. m., followed by the regular meeting. Dinner will be served at the dining hall, town house, at 12 m. The camp-fire will be opened at 2 p. m., to which the public are invited. Exercises will close at 4:30 in season for trains east and west.

"What's the matter, my lad?" an old gentleman asked of a youngster who was crying lustily in the street. But the boy couldn't reply through his sobs. "Please, sir," chimed in a companion, "we were playing marbles and he's bin and lost his glass alley." "There don't cry," exclaimed the old gentleman kindly. "Here's a penny; run and buy some more." But the tears continued to flow. "There," went on the benefactor, "I wouldn't cry any more if I were you." "Yes-e-s you would," gasped the weeping one, "if you'd—sobs—"lost your father's glass eyes!"

Laverne L. Niles of Rumford has been appointed agent for prevention of cruelty to animals.

Making Jellies.
Conditions which puzzled the housekeeper of long ago and caused her to pay more or less superstitious attention to the phrases of the old women, are perfectly understood today by her up-to-date descendant. She may not have better success than her ancestor, her success may not be as great but she is saved the wear and tear of nerves that comes from uncertainties. She knows what to expect under certain conditions.
If there is a deluge of rain on Monday, she does not wish to make jelly on Tuesday because she knows the fruit will have absorbed the water and that means extra boiling to evaporate the water; the long boiling will darken the jelly or coarsen the flavor.
She also prefers to make jelly on a bright day. When she can possibly take care of the fruit and attend to other imperative matters, she knows that she can mash the juice from the berries, heat them and let them drip. If she heats and then covers there is no danger of fermentation for awhile. That helps the juices to disengage and she can make jelly on different days instead of all at once. She keeps for her family a bright little woman, instead of a tired overworked one.
The best fruit for jelly is either a ripe or a green fruit. The reason is that green fruit contains two elements, which unite into a different element called pectin as the fruit nears ripeness. It is this new element which causes the juice to set in jelly when sweetened sufficiently and heated. After fruit ripens this pectin disappears. Even when it is present in quantity to make jelly, the fruit that is too ripe cooks to pieces too easily and gives a cloudy jelly, when one has reason to suppose that fruit is too ripe to make good jelly it is a good plan to add a small amount of lemon juice or acid fruit.
One of the best fruits to use as a base jelly is the apple. It always jellies and a very little will be sufficient to influence a large amount of other fruit. Its flavor is not discernible when used with other fruit.
There is one general mode of proceeding in this work says a writer in the Pictorial Reviewer. First, wash the fruit, reject the decayed pieces, wash well and drain. Perhaps the finest fruit will be culled out for canning. Juicy fruit is not cooked with water. It is enough to mash it and heat gently, thus drawing out the juices. Apples, peaches, plums and "meaty" fruit are put on to cook in just enough water to cover or even less. If the pulp is to be used for marmalade the fruit must be pared and cored, otherwise it is not necessary. Cores and skins from the apples could be cooked separately and the juice poured with that from the pulp.
As soon as the juice is extracted turn all into a flannel or stout linen bag and let it drip without squeezing. This makes the clearest jelly, and a second grade can be made from what is squeezed out.
Have two cups of exactly the same size and keep one for the sugar and the other for juice. Measure equal parts of sugar and juice for each boiling and do not try to make more than one glass at once. There may be two kettles on at once, but one should be started a little later than the other. No mental except silver should be used in any of this work. The utensils should be granite or earthenware.
Some prefer to heat the sugar and add it to the juice when it heats. At any rate, stir until the sugar is dissolved and then boil steadily but not hard. After ten minutes it must be poured, closely for it changes rapidly and if cooked too long the jelly will be too thick or fail to form.
While cooking, the juice must be skimmed and when ready to set off it must be cleared entirely. If the sugar is stirred it will break and scatter through the jelly and cannot be removed. The glasses should be heated in water, and when being filled should stand in hot water out of a draft. Put a spoon in the glass while pouring. In the jelly and there will be less danger of breaking the glass. The jelly is done when it hangs in a drop from the spoon and coats the spoon evenly.
After the jelly is cool, pour melted paraffin over to the depth of a quarter of an inch. When the glass is opened the wax can be washed and saved to use again. It is a good thing to use the wax even with the tin covers. Nothing but tin withstands the ravages of house flies. Glasses may be covered with paper dipped in white of egg.
Current Jelly—Make as directed for all jelly or use this way. Heat the juice to boiling and take an equal amount of hot sugar. Stand near the glasses and stir till the sugar is dissolved. The jelly forms at once and everything must be ready. Crab Apples—Follow general directions using half as much water as fruit. Grape Jelly—Two gallons can be made, different in color and taste, by pulping the berries and making the skin into one jelly and the pulp into the other. A teaspoonful of lemon juice to a pint of grape juice will assure jelly which will not candy. A mere trace of vegetable pink coloring matter will give as pretty a color as crab apples. Indeed the jelly from the pulp can scarcely be told from crab apple jelly.
Green Jelly—Use before they turn. Rubarb Jelly—Wash but do not pare. Use half a cup of water to start cooking. Rubarb in thin pieces. Put a few apples with the rubarb. If the color is not pink enough, add red skins or a speck of vegetable color.
Blackberry Jelly—At the first of the season they will make jelly but the best to use is of apples when very ripe.
Cherries and Currants—Use one-fourth currants.
Raspberries and Currants—Use one-third raspberries with currants to cook. Gooseberries—One-half water to cook berries.
Tomato Jelly—Use the yellow varieties and put the juice of one lemon to every pint of tomato juice.
Quince Jelly—Use any proportion of apples and quinces. Equal parts give satisfaction. Pare and core the quinces and also the apples and use the pulp for marmalade.
Peaches—Very uncertain because as sold in cities they are over ripe for jelly. The process is the same as for jelly except that half as much sugar is used. They are fine for flavoring ice and puddings.
One enterprising woman supplies herself with pin money by making spiced raisin cookies using fruit syrup instead of milk. These she sells to tourists at a nearby resort. No doubt, the same thing could be done with the woman's exchanges, as the cakes would ship well and improve with age.

Telling How to Care for the Eyes
No eyes however beautiful in themselves, preserve their attractiveness when sunken in hollow orbits; when the eyebrows are constantly contracted; when the eyelids are reddened or swollen; or when they resemble a sealed leaf, brown and crumpled; or when the delicate membrane lining is inflamed and granulated; or when the surrounding tissue is covered with innumerable wrinkles, or when the eyelashes are short, stubby, uneven and patchy!
The eyes are in constant use, and yet, of all the organs in the body, they are the least cared for, and the most abused. We saw and read in a fading light, in forced positions, straining our eyes to the utmost, wrinkling our eyelids to a mere slit in an effort to concentrate the dim rays; women peer for hours at a time through veils some with solid dots and some in large open circles, and the vision completely; we read in rapidly moving trains, while the matter we endeavor to focus upon is being jostled in all directions; we read while lying down and with insufficient light and the constant wonder is that our eyes are so tolerant of such abusive treatment.
They should be given a bath morning and night, in the morning to remove the secretions which accumulate during sleep and to freshen and stimulate them for the day, and at night to remove the dust and grime, and to prepare them for any treatment they might require, which is best given at this time, as it produces the best effect during the hours of rest.
For the bath nothing can take the place of an eye cup and either refined sea water or ordinary salt solution. It should be used quite warm for cleansing purposes, about a heaping teaspoonful of salt to a pint of water, and cold water can be dashed on afterward for its tonic effect.
I like to use two eye cups at once, one for each eye. Fill them quite full of the salt solution, hold them up near the eyes then lower the head until the eyes fit into the cups, now carry them upward as the head is thrown back, thus inverting the eye cup. While in this position, open and close the lids constantly so that the water is splashed around quite vigorously. If the secretions have not all been carried away (they usually lodge along inner, under borders of the lids), dip a tiny pledget of cotton into the salt water and carefully remove any that remains. Never "dig" into the corners with a washcloth, or sponge or towel, it tends to inflame the delicate tissues.
While granulated lids are almost always an indication of eye strain, they are sometimes due to indigestion, especially in children. Frequently this condition is accompanied by such extensive secretions that the lids get glued together in the morning, or "crusts" form on the eyelashes. They must then be bathed gently with sterilized cotton and warm salt water, and the lotion used copiously.
It is not advisable to remove the crusts forcibly, as the lashes are sure to come away too. Anoint the eyelids along their borders thoroughly with an ointment, rubbing it gently with the tips of the fingers.
Styes are troublesome little boils like conditions due to inflammation of the hair follicles. At first they can sometimes be obviated by the continual application of heat, or of ethereal collodion applied with a camel's hair brush. When however, the condition goes on, a tiny point of inflammation rapidly ripens the stye so that it can be opened with a sterile needle (made so by passing it through a flame two or three times). The pus should be entirely removed, and the stye bathed in warm water. A raw, raw, raw water; the wound will heal in a few hours.
Incurring eyelids usually occur on the lower lid, and only by the removal is comfort insured. Anyone can do this by means of a cilia (hair) forceps. Sometimes electricity must be used to destroy the hair follicle; but it is quite painful. The eyebrows, while acting as protectors to the eyes, also aid powerfully in leading expression to them and to the entire countenance. Thin, sagged, highly arched brows are a mark of beauty, and they are very rare. By pinching them between the fingers and confining them within a narrow line they can in time be trained to grow in this manner. Shaggy, supercilious hairs can be removed with the cilia forceps; when the brows grow thick and unevenly, electrolysis successfully improves them.
The skin beneath the brows needs daily attention. One frequently sees a dry, scaly condition here, due to the dandruff of the scalp—and indeed it is the same thing—and here and there tiny bald patches. Crude petroleum rubbed well into them at night will relieve the scalliness and promote the growth of hair. A tiny brow brush should be on every one's toilet table, and used daily; it imparts lustre to the brows and keeps them in good condition.
Since good health and spirits are manifested by the clearness and alertness of the eyes to every department of the bodily functions leaves its impress upon them. Unconsciously when vexed or very tired even, one frowns and soon the habit is produced and ugly furrows appear, marring the beauty of the brow.
To "iron" these lines, stretch the skin smoothly between the thumb and forefinger of the left hand, vigorously rub a small bit of good face cream into the furrows in a direction opposite to that in which they are formed; then apply strips of adhesive plaster in such a manner that contraction of the muscles is impossible. Many women wear these plaster around the house as well as at night.—Delineator.

The Moon's Influence.
Farmers Declare They Profit by Respecting This Superstition.
The agricultural department has undertaken to disabuse the mind of the American farmer of the "superstition" that the moon's phases influence the growth or yield of crops. This is a matter that has pestered the husbandman and the philosopher for ages, and the interrogatory is as pertinent to-day as it was when Shakespeare was a farmer. If the moon influences the action of the waters of the ocean, why should it not exercise some dominion over the energy of the soil?
Ten thousand times ten thousand intelligent, thrifty, successful farmers will tell you that they have profited by giving respect and making note of this superstition. They have been governed by it, and when they have disregarded it they will say the result has proved disastrous.
Shakespeare was endowed with a wonderful understanding, at once telescopic and microscopic. Nothing was too great for him to observe, and nothing too minute for him to disregard. He was a successful planter, and he believed in the moon superstition. In "Tollus and Cressida," where the lover made the extravagant protestations of his loyalty to his mistress, one of the similes he drew was:
As true as steel, as postage to the moon, As sun to day, as turtle to her mate, As iron to adamant, as earth to the center.

What is it that could occupy the human mind that Shakespeare did not investigate and pursue to its last conclusion if it were confined to matters material to the world? Nothing—absolutely nothing; and if he advised the planting of potatoes in the dark of the moon and the laying of a rail fence in the light of the moon, nobody is going to the poorhouse by acting on his admonition.
"Superstition" is a very good thing to encourage now and then—especially the moon part of it in relation to planting and cultivating.
We don't mind the passing of the strawberry so much as if the blueberry pie and blueberry bread were not all ready with us. Even strawberry shortcake can't beat them.

BETHEL.

Work is rushing at the novelty mill on Bridge street.

Mrs. Frank Fint is expected home about September 1st.

J. M. Philbrook shipped a car of stock to market this week.

A. L. Burbank of Portland was in town the first of the week.

Charles C. Farwell has not been as well the past week as usual.

Mrs. Lulu French of Portland is visiting her sister, Mrs. Clarence Fox.

Freight at this station is unusually brisk at this time of the year.

The boiler for the Electric Light Co. has arrived and is being set in place.

The circus will exhibit on the Rowe lot opposite Bridge street next Monday.

Dr. J. G. Gehring has made extensive repairs on his residence at the head of Broadway.

Harold Young from Portland visited his parents, Mr. and Mrs. Frank Young, the first of the week.

The Electric Light Company are busy wiring the blocks and residences in the village for electric lights.

The farmers are taking advantage of the fine weather to get their hay. The crops are unusually good this year.

The members of the Universalist society held their annual picnic in the grove back of Mill brook on Tuesday.

Warren Emery has been hauling river gravel and filling in on Main street between Vernon and Spring streets.

The usual large number of passengers took advantage of the low excursions to the mountains and seashore, Sunday.

Grace Ames of New York came to her summer home, Saturday evening, to spend the summer with her mother.

A large number of the members of the Methodist society attended a picnic at Lake Christopher, Bryant Pond, on Monday.

M. G. Burbank, who has been visiting his mother and sister on Railroad street, returned to his home in Brooklyn, New York, Friday.

Some night marauders visited the chicken coop of Alton Richardson recently and helped themselves to some fifty of his chickens.

If there are any members of the Episcopal church in the village, will please state the fact by sending a postal card addressed to Box 203, Bethel.

Work is progressing very rapidly on the new Academy dormitory. It is hoped to be ready for occupancy by the time the Academy opens for the fall term.

Helen Swan and her sister, Mrs. Linzie Bartlett, accompanied by their son, Carroll, of Norway visited their uncle, Charles Farwell, and family on Railroad street.

Mrs. Fred Farwell and her niece, Mary Zowe, who have been spending the month at Mr. Farwell's parents, returned to their home in Somerville, Mass., on Wednesday.

Edith Marsden went to a hospital in Portland, Saturday, for an operation on her throat. She was accompanied by her mother, Mrs. Nora Marsden, who is head nurse in the Medico Chirurgical hospital in Philadelphia, Penn.

Ada Bean came home to spend the Sabbath.

Orlando Buck out the grass on the Israel Kimball farm.

Mrs. Bert Akers of Rumford is with her sister, Mrs. Joseph Oliver.

Mrs. Wm. Farwell and family have 150 hens and 100 or more chickens. If you wish to find a first-class family and farm call on them some day.

Marjory and Grace Farwell with their brother Wallace went to Berlin recently on the excursion train to see their sister, Mrs. Walter Wright. Marjory remained for one week with her sister.

Grover Hill.

W. J. Wheeler of South Paris was in the place, Friday.

Myles O'Reilly and wife of West Bethel were in the place, Sunday.

Mrs. Josie Whitman of Massachusetts is visiting her daughter, Alta Whitman.

Mrs. Geo. Spiny is staying with her son, Anson Long, during the absence of his wife.

Malcolm A. Jordan and family of Mechanic Falls are guests at the home of M. F. Tyler.

Dr. G. F. Fernald was called Sunday night to attend a sick horse belonging to Fred Mudgett.

LOCKE'S MILLS.

Mr. Hanson of Berlin was in town, Friday.

Nellie Green of Berlin recently visited her aunt, Mrs. E. P. Harrington.

Mrs. Lena Rand is entertaining her sister, Mrs. Winchester of Portland.

Carroll Bartlett of Lewiston spent Sunday with Mr. and Mrs. C. R. Bartlett.

George Goss of Auburn has been spending a few days with Chas. Tebbets.

Mr. and Mrs. D. B. Grant and son Dana spent Sunday in Portland and vicinity.

L. P. Bryant has moved into his new home recently purchased of Addison Bryant.

Mrs. Oscar Brown is spending the week with her sister, Mrs. Mellen Cole at Portland.

Mr. and Mrs. David Foster and Mrs. Foster's mother have moved into L. C. Trask's new rent.

Mrs. Addie Rand and daughter Elsie from Alabam arrived here, Tuesday, and will occupy Perry Lapham's cottage for a few weeks.

PARIS HILL.

A quiet wedding took place at the home of Mr. and Mrs. George Gibbs of this village, when their daughter, Annie F., was united in marriage with Ray Everett Cotton. They stood in the bay window which was decorated with potted plants. The bride wore a white silk muslin with blue dots and the groom was dressed in brown.

After a few weeks they will go to Lowell where they will make their home. They have the best wishes of all for a happy life.

Mr. and Mrs. George Sanders of Boston with their two children are at Loren B. Merrill's.

Mrs. V. K. Parris and daughter Annie have gone to Portland for a week's visit. Mrs. Parris has not been away from home for several years. We hope the change will do her good.

Mr. and Mrs. Thomas P. Jackson of Brownton, Minn., who came here last fall, have started on their homeward trip. They are now at Colorado Springs one of America's famous show places. They write that it is a most beautiful country. They go from there to Seattle, Wash.

Orland and Mary Daniels joined the family here last week.

Mrs. Albert E. Davies and Miss Polly are at "Owls' Nest" for August.

Cutis Clark of the General Electric Co., is spending his vacation at Paris.

Gertrude Case celebrated her third birthday Saturday, with a party of children.

Mrs. Rose James of Rosario, Argentine Republic, is the guest of her daughter, Mrs. H. W. Lyon, at "Lyonsden."

Rev. C. A. Knickerbocker, of the men's handcup cup at the golf links Saturday, and Miss Cole the ladies' cup on Tuesday.

Archib H. Curtis and Joseph J. Slatery, with their families, spent a few days last week at Mrs. E. M. Curtis' cottage, Falmouth Foreside.

Mrs. E. H. Jackson entertained the Five Hundred club Friday afternoon at 8 o'clock. Six tables were filled. Dainty refreshments were served.

A fair-sized audience at Academy hall enjoyed the first Universalist circle of the season, Friday evening. The bright little faces, "The Burglars," was well rendered by several young ladies.

Rev. C. A. Knickerbocker gave a Shakespearean selection, W. C. Horne sang Tosti's "Forever and Forever." Both gentlemen were given hearty encores as was also Miss Carter's Spanish dance.

Rev. Lyman Ward of Camp Hill, Ala., gave a short talk Sunday morning at the Universalist church, on the work of the Southern Industrial Institute at Camp Hill. This is a school for white boys and girls and has been established about 11 years.

Mr. Ward was the founder of the school and is deeply interested in the work. He is a pleasant speaker and the congregation enjoyed his address.

Mrs. Lila Doe Hudson of Watertown, Mass., with her six-year old son, came to Paris last week for a short stay with Mrs. Doe. Mrs. Hudson left this week accompanied by her brother, Fred Hudson, to make arrangements for moving to Portland, where she has purchased a store. Master Hudson has assumed the care of driving the cows during his uncle's stay in Boston and vicinity. Benj. S. Doe of Paris will assist his sister in Portland at present.

By the death of Miss E. S. Cotton last week Paris loses one of its best beloved citizens. For many years Miss Cotton has made her home at Paris in the family of her sister, the late Mrs. William S. Doe. During this time she has made many warm friends who will long remember her for her nobility of character and gentle ways. The funeral on Thursday at her late home, the residence of her nephew, James L. Chase, was attended by Rev. A. F. McWhorter of South Paris Congregational church, of which Miss Eaton had been a member for many years. Rev. G. W. F. Hill of Paris Baptist church assisting. Burial at Evergreen cemetery, Portland.

NORTH WATERFORD.

John Willis has just built him a nice boat.

Addie Littlefield of Lovell is stopping at Walker Nason's.

Mr. and Mrs. Herman Richards have just had the measles.

Mrs. Ezra Hersey was sick Sunday as a physician was called, and family are here at their summer home.

Mary Kneeland of Sweden visited at Mrs. Will Moulton's last week.

Rev. Aldrich is preaching here and at Stonham and boarding at Will Rice's.

Alphonzo Charles went to Norway Sunday to carry his mother home. She has been visiting him several weeks.

A crew of men turned out Tuesday and hauled for David H. Leake. He is unable to do any thing since his shock.

There will be a Lawn Party at Will Knight's Thursday evening, August 5th entertained by the circle. Ice cream and cake and home made candies for sale.

Mrs. Fannie Brown and son went home with her sister Mrs. Viola Beal who has been visiting her. Mrs. Emma Brown went to Norway with them. Mrs. Lizzie Jewett is keeping house for her.

Bisbetown.

Mrs. Louisa Knight and Mrs. Martha Bisbee entertained the Woman's Relief Corp and a few invited friends at the "Play House" Thursday of last week and a fine time was enjoyed by all. A bountiful dinner was served on the piazza. There were thirty-four present. Some came in hay racks, automobiles, single teams and some on foot. All declared time passed so quickly and are planning to meet there again next year as this meeting was one of the best.

NORTHWEST ALBANY.

Mrs. Bert Brown has been having a bad cold.

Leland Mills visited his sister, Mrs. Irving Hutchinson, Sunday.

Louise M. Bennett has been sick. A physician was called to see her.

Andrew Stiles and Mr. and Mrs. Hunt have been the guests of F. H. Bennett.

Erma and Eula Mills of Massachusetts are the guests of their brother Carleton Mills.

Mr. and Mrs. B. Mills went to Yarmouth, Sunday, to see Mrs. Mills' mother, Mrs. Lydia Merrill.

Mr. and Mrs. S. W. Rolfe and little sons visited H. O. & P. H. Rolfe in East Waterford, Saturday and Sunday.

Mr. and Mrs. C. W. Rolfe visited their son, G. M. Rolfe, Sunday. Mrs. Rolfe had not been from home since the third day of last November.

CARD OF THANKS.

We wish to thank our friends and neighbors for their kindness and beautiful floral tributes in our recent bereavement.

Mrs. ESTHER PORTER.
Mrs. PAULINE FARMER.
Mr. FRED McALLISTER.

Oxford, Maine.

OXFORD.

A Hayrack Ride.

Harry P. Kay is earnestly working to get the fellows to have a hayrack ride. Harry tries hard to keep things moving and have the boys have some get up and get about them.

A. S. Fuller was in town on business, Monday.

Mrs. Kate Starbird made a business trip to Norway, Monday.

James Glover is enjoying good health again after a severe illness.

There will be a dance in Robinson Hall, Saturday night, July 31.

Duket Bowie has hay all in the stable after a week's hard labor.

The Camp Oxford boys took their annual trip to Harrison, Saturday.

Several of our young men took the excursion trip to Berlin, Sunday.

James Glover has had a citizens telephone installed this week. 304-15.

Mrs. George F. Walker of Portland is stopping at the Oxford Spring House.

Charles Robinson has moved to South Paris, where he is employed as blacksmith.

Peter Belsau scalded his hand very badly, Saturday morning while preparing to shave.

Albert Robinson, who has been visiting friends in and about Boston; returned home, Saturday.

A number of our base ball sports attended the Norway-Mechanic Falls game at Falmouth, Saturday.

Margaretta and sister Marguerite started for Providence, R. I., where they will make a short visit.

Mr. Harry Delano went to Dover, Me., where he will play ball with the Dover's for the remainder of the circle.

Mr. Hausoom and Mr. Bean somewhat surprised the natives by bringing into town a large number of fish, Tuesday night.

Messrs. Dunbar and Walker are back to work again after having spent a month's vacation at their cottage on Lake Thompson.

Lina Carr gave a house party, Tuesday night, in honor of her friend, Miss Holman of Newton, Mass. A number of Mrs. Carr's friends were invited, and a social time was enjoyed.

The cottages on Lake Thompson are rapidly being filled, and it is reported that there are more summer visitors here than ever. Dr. Farris' cottage seems to be a favorite for the visitors.

The ladies of the Methodist Circle have postponed their mid-summer sale until Wednesday, Aug. 4th. There will be food, homemade candy, ice cream, aprons, etc., on sale. A short program will be given.

BOLSTER'S MILLS.

John Hancock was at home over the Sabbath.

Rev. D. A. Tuttle and wife called on friends last of the week.

Eugene Plinkham and Miss McIntire visited at Fred Weston's last Sunday.

Ethel Haskell and John Green are passing their vacation at William Haskell's.

Wendell Weston is visited by his brother and wife, Mr. and Mrs. Zebulon Weston, from Massachusetts.

The church services and Wednesday evening prayer meetings are largely attended. Rev. Mr. Fellini chose for his theme last Sunday, "The Reality of Christ," and held the close attention of his audience. A profusion of beautiful flowers adorned the altar and several singers from out of town added greatly to the music. The Sabbath school convenes at 2 o'clock, preaching service at 3 o'clock and prayer meeting at 7.30.

The pastor and people united in extending a cordial invitation to every one to attend these services. Let every one avail himself of this privilege as Mr. Fellini can remain with only through the summer vacation.

OTISFIELD.

Mrs. Eugene Edwards is stopping at Harrison a short time.

George Scribner has purchased the Llewellyn Smith place.

Nellie Lattulip visited her cousin, Gladys Edwards recently.

Emma Chandler of Webb's Mills visited at A. H. Smith's recently.

Mrs. Rose Edwards visited at Solomon Gay's in Casco one day last week.

Mr. and Mrs. Will Simpson of Bridgton recently visited friends in this place.

Mrs. Eugene Scribner returned home from Massachusetts last week. She has been visiting friends there the past two months.

HANOVER.

Georgia Abbott is visiting friends in Bethel.

Mrs. Viola J. Russell spent the past week with relatives in Milan, N. H.

Mrs. Charles Smith of Farmington is spending a few weeks at E. P. Smith's.

James A. Shedd and wife of Norway spent several days of last week at Camp Bruin.

Eva Russell, who has been taking a course in stenography in Portland, has returned home for the remainder of the summer.

Max Sealmer and friends, who are camping at The Ferns, went to Rangely Lakes, Monday, for a week's fishing. They were accompanied by Elmer Howe, who will guide the party.

EAST GREENWOOD.

Mrs. W. S. Emmons is sick with tonsillitis.

Bert Outler has been in town buying lambs.

Mr. and Mrs. Alby Noles was at Alva Estes, Sunday.

Elmer Packard and mother have been on a visit to Mechanic Falls.

Mrs. Jacob Curtis is spending a few days with Mrs. Sewell Millett.

Mrs. Maggie Walton was the guest of Mrs. Fred Edgley, last week.

Albion Tuberville of South Paris was the guest of Ed Pike and friends Sunday.

Mildred Lewis, who has been visiting at George Cole's, returned home Saturday.

Pifty thousand able-bodied men wasted out west to help harvest the big wheat and other crops. This news will probably bring about a "crazy" rush of loafers "looking for work" towards the east.

BRYANT'S POND.

Saved from Fire.

The Grand Trunk pumping station at this village was destroyed by fire early Tuesday morning. The fire company was called and by hard work managed to save the boiler and pump. All the buildings were ruined. Fortunately there was no wind which aided the fire company in preventing its spreading to other buildings.

Mr. and Mrs. Frank P. Ritchie visited last week at G. L. Cushman's.

Rev. C. D. McKenzie held a meeting at East Milton, Tuesday evening.

Mr. and Mrs. Cronin and daughter of Taunton, Mass., arrived at Mrs. Flora Cole's, for a few weeks' stay.

Mrs. Edwin H. Cole is spending a few weeks at Falmouth Foreside with her son, Vern McAllister and family.

Mrs. J. L. Bowker and Mrs. Pearl Muller with two children visited last Wednesday at Albert Bowker's, West Paris.

Mr. and Mrs. Frank P. Ritchie, who have been boarding at E. G. Wing's, went to Old Orchard Saturday, for a few weeks' stay.

Mrs. Emily J. Felt went to Norway on Wednesday to the funeral of Mrs. Merrill J. Rowe. She was a dear friend of their family for many years.

G. W. Q. Perham and wife and Mr. and Mrs. E. B. Perham of Somerville, Mass., attended the funeral of their aunt, Mrs. Merrill J. Rowe, at Norway, Wednesday.

Rev. A. Z. Conrad from the Park street Congregational church in Boston will preach next Sunday at the Baptist church at 10.30 a. m. All are invited to come and fill the house.

Mrs. Albert Bolster has invited the Ladies' Aid to hold a lawn supper on their lawn next Tuesday evening. There will be a sale of aprons and other fancy articles in the afternoon.

WATERFORD.

WELCHVILLE.

Bones Broken.
Archie Smith and family from Otisfield started for Machias Falls, Monday afternoon. His horse became frightened by the train, ran and threw them out. Mrs. Smith's leg was broken and his oldest daughter broke her arm.

Mrs. Charles Gammon was in Westbrook, Saturday.

Essie Pratt from Mechanic Falls is visiting with Mrs. Flora Poland.

Rena Dodge and Gladys Williams from Providence are visiting with their uncle, John Jones.

Sadie Mayberry and sister, Mattie Heriot, went to Bridgton, Saturday, to visit their sister, Mrs. Clinton Herriot.

Mrs. George Field and daughter Pauline and Mrs. B. N. Dudley visiting with Mr. and Mrs. Frank Washburn of Westbrook, Saturday and Sunday.

Leon Kimball is helping P. P. Dresser with his haying.

Walter Lord is cutting the grass on his farm this week.

Roy Lord and Charles Barnes have swapped horses.

Fred Black of North Waterford is at work for J. D. Horr.

Hiram Holt and family were at Merritt Sawin's, Sunday.

Herman Holt and family of Lovell have recently visited relatives here.

Mrs. Ernest Browne has been seriously ill the past week and under the care of a physician.

Haying is getting along slowly because of the bad weather, but a very good crop will be secured here.

Samuel Webber spent last week with his nephew, John Grover, in Waterford. Mr. Webber has finished his visit with his sister, Mrs. Lenora Abbott, and returned to his home in Massachusetts.

Agnes Hall of Buffalo, N. Y., is visiting the week with her uncle, Merritt Sawin. Miss Hall is a teacher in Johnstown, N. Y., and is spending her vacation with relatives in Portland, Paris, Albany and Waterford.

BROWNFIELD.

Blueberries are very small owing to the drought.

Charles Fogg and sister of Lovell are visiting relatives in town.

Everett Grafton, who has been working in Nashua, N. H., is home for a vacation.

Mrs. George Frost and Miss Dunham of Boston opened their cottages Monday for the season.

The farmers are all rushing their haying during the fine weather. The crops are heavy this year.

Ferley Brown and wife of Fryeburg spent one day recently with Mr. and Mrs. Samuel Warren.

Mr. and Mrs. Elias P. Morton of Andover, Mass., are being entertained by Mrs. E. A. G. Stickney.

Albert Blake, who has been ill and confined to the house for some time is able to be about again.

J. L. Frink has returned from a visit with his son E. L. Frink and daughter Mrs. Linnie Allen of Portland.

The Universalist Circle was entertained by Mrs. William P. Brooks at her home, on Wednesday afternoon.

Theon Durgin is building an addition to his house, which will make a very pretty cottage when completed.

Myrtle L. Harmon has returned from Wollaston, Mass., where she has been staying with Mrs. Fred Eastman.

Rev. Newton Clough went to Portland Saturday to visit his wife, who is in the Maine General Hospital there. She is gaining although rather slowly.

Mrs. Julia Bean, Lucinda Wentworth and their guests Mr. and Mrs. Joseph Goodwin of Livermore Falls took a trip through the mountains to Fabyan's on Wednesday.

OAKS.

Josephine Gerrish spent the day with Eda Gerrish recently.

Ernest Winslow has been helping Sumner Skilling with his hay, trees and shrubs.

Mrs. M. F. Thorne and daughter Mabel went to Oxford recently on business.

Mr. Edwards and wife of Paris are at E. B. Jilson's as Mr. Edwards is doing the piping there.

Elwood Thorne, who works at Casco, spent the last week with his parents, Mr. and Mrs. M. F. Thorne.

The cottages around Pleasant and Thompson ponds, which have been unoccupied for a long time, are beginning to be occupied.

The people around here are about done haying, would have finished before if the weather had not been poor. Mr. Pearson has finished haying rather soon on account of being a great worker.

EAST FRYEBURG.

Sylvia Smith has been visiting her daughter, Mrs. Hazel Beny.

Gilbert Smith and wife and little son visited relatives here recently.

E. B. Lord is painting his buildings. E. B. Warren is doing the work.

Mrs. Gladys Brooks spent Saturday and Sunday with her parents, Mr. and Mrs. H. W. Lord.

Henry Gray with some friends from Conway spent Saturday night and Sunday at his camp on Kezar Lake.

A. E. Cole has sold the Butler House to parties at Freeport, Maine. It will be repaired and used as a club house.

There was a regiment of United States soldiers passed through here Sunday on their way from New York to Augusta.

EAST DENMARK.

Florence Hilton visited relatives in Corinth last week.

Gardner Adams bought a cow Saturday of N. M. Moxey.

The Denmark ball team played a game with the boys at Riggs' camp Saturday forenoon, resulting in 10 to 2 in favor of Denmark.

Mr. and Mrs. Samuel Warren, of Brownfield, Mr. and Mrs. Parley Brown of Fryeburg, and George A. Small of Portland, dined with T. I. Lowell, Sunday.

EAST OXFORD.

Frank Bunpus, Howard Wheeler and Winifred Swift were at J. P. Penley's, Sunday.

P. J. Billings has a Baldwin apple tree that has blossoms and apples on the same branch.

J. P. Penley cut 15 tons of nice clover hay, the first crop from 6 acres he seeded down last year.

Some men from New York and Boston were in this place, Friday and Saturday, buying old-fashioned furniture. They bought several pieces.

SOUTH WATERFORD.

Emersonia.
At Ed. G. Emerson's mill near the Harrison line the lumbering business is thriving. Mr. Emerson is furnishing the lumber for the building of Prof. Williams' large bungalow on the west shore of Lake Keoka. He has just shipped an order of 26,000 ft. of pine boards and plank to Onida, N. Y. He has a large supply of lumber and logs on hand.

Mrs. Mary Witham and Carrie Witham of Westbrook recently visited the family of the Emersons, and while there a party consisting of Mr. and Mrs. E. G. Emerson, Carroll Ederson, Mrs. Carr Adams, a sister, and her children, Leon and Flora Adams, accompanied by their lady guests made an excursion to Norway and South Paris, halting on the return trip at the shore of beautiful Penessees.

It was a rainy day for dinner, a picnic. It was a rare occasion for Mr. and Mrs. Emerson, who seldom shake their business cares for the call of pleasure.

Mrs. Carrie Adams, who was recently ill at the Maine General Hospital, is quite convalescent and is living pleasantly with her brother, E. G. Emerson.

Leon L. Adams, a nine years old boy living with his uncle, E. G. Emerson, is addicted since a year ago to driving a four-wheeled horse team with big loads of lumber. He is a very brave and trusty boy.

Mrs. Marion Holden (nee Pike) is ill with bronchitis.

Mrs. Jennie E. Kimball has been entertaining company.

That was a very excellent sermon by the Rev. Mr. Sias at the church, Sunday.

Mrs. Warner Kneeland is being visited by her mother, Mrs. Nellie Lord of Fryeburg.

Thomas W. Rich and daughter, Mabel Rich, of Hyde Park, Mass., are guests of Mrs. Augusta Monroe.

Mrs. Ward Moore and her sister, Maudie Atherton, of Massachusetts are visiting their parental home at John Atherton's.

HARRISON.

Beatrice Haskell is working for Mrs. E. C. Willison.

Mrs. Herbert Popham is working at George Flint's.

Mr. and Mrs. Daniel Caswell were in Boston last week.

Elmer Willison of Newtonville arrived in town, Saturday night.

Mr. and Mrs. John Chute of South Paris were in town, Monday.

Mary Pitts is at work for her aunt, Mrs. Abbie Haskell, near Bolster's Mills.

The automobile bought by Dr. Sykes, and H. H. Caswell arrived, Thursday.

Irving Russell and family returned to their home in Union N. H., Tuesday morning.

A concert for the benefit of the Free Baptist church was given in the Grange Hall, Friday evening.

Sam Webber of Pittsburg, Mass., visited, during the last week, his cousins, Mrs. Lella Wheeler and Mrs. Nellie Leighton.

The Sunday school of the Congregational church had a very enjoyable picnic last Thursday in Libby's Grove at Island Pond.

Mrs. George Flint is ill at her home in this village. Mrs. Anna Dudley served as organist at the Congregational church last Sunday owing to Mrs. Flint's absence.

Maple Ridge.

Alta Witham is at work at S. H. Dawes'.

New guide boards are being set through town.

Mrs. Cora Leighton's two children are boarding at Frank Ward's.

John Witham is the first man to complete his haying here, as usual.

Wendall Weston's brother Zebulon from Massachusetts is here visiting him.

Flora B. Edgerly of West Paris is spending the summer with relatives here.

Mell Merrow has recently purchased a span of pretty driving horses of the Andrews Brothers.

Philip Chute is supplying Camp Kineo and Camp Wildmore on Long pond with poultry this season.

James Thomas and Q. M. Chute bought the grass on the Jesse Lewis farm and cut it all in one day.

Mr. and Mrs. Ronell Wight and Mrs. Herriok of Bridgton were guests of Mrs. M. E. Wight, Sunday.

George and Joe Pitts have sold the farm recently purchased of D. H. Ward, to Irving Russell of New Hampshire.

Grace P. Stevens of Holden, Mass., who is visiting relatives here is at present with her grandmother, Mrs. C. A. Edgerly.

The Camp Kineo boys to the number of about 60 went in their canoes Friday, down Crooked river, returning by way of the pond.

Those destructive green worms are again discovered in our shade trees and forests. Potato bugs are more numerous than they have been for years.

James Flick's cattle with which he does his mowing, recently ran away; the machine was badly damaged, but not so Jim's courage. He says he can mow as much in a day with one cow as his neighbors can with horses. Good for Jim.

WEST SUMMER.

Mrs. M. J. Puleifer has been stopping with Mrs. N. Tuttle for a few days. She is quite feeble.

L. C. Howe of Brookton, Mass., spent a few days with his parents, Mr. and Mrs. H. H. Howe.

Mrs. Susie Bowker of Biddeford were guests of Mr. and Mrs. K. P. Bowker a few days the past week.

The S. B. R. club met with Mrs. H. J. Howe, Thursday, Aug. 5; author, Gerald Massey; reading, Lion and the Mouse.

E. Tuell and wife of Watertown, Mass., were guests of his father and her sisters, Mrs. Rita Tuell and Mrs. Helen Chandler.

Rev. Chester Gore Miller was entertained at G. A. Chandler's over Sunday. The decorations at the church were beautiful.

Mrs. O. Holmes and children of Lynn, Mass., are spending a few weeks with her mother, Mrs. Richard Robbins, at her summer home.

NEWRY.

Bion Sanborn passed through the place here on his way to Grafton.

Mrs. A. H. Powers visited her brother, N. W. Frost of Hanover, Sunday.

Mrs. L. A. Powers found an apple tree with the apples half grown and a cluster of blossoms pink and white, looking as fresh as in the spring, one day last week.

CARD OF THANKS.

We wish to extend our heartfelt thanks to our neighbors and friends for their kindness and sympathy in our recent bereavement. The sudden death of our dear husband and father, William H. Abbott, at our summer home in Lovell, Me., also for the many beautiful flowers.

Mrs. SUSAN T. ABBOTT.
Boston, Mass. Mr. WILLIAM T. ABBOTT.
LOVELL.
No. 4.

William H. Abbott.

Saturday morning, July 17, Mr. Abbott arose in his usual health and attended to his chores. Soon after breakfast he took his fish rod and basket and telling his wife he was going to bring home trout enough for their dinner, started for Kezar river fishing.

Mrs. Abbott expected him back by eleven o'clock, at noon he had not come and she was much alarmed. She got John Kimball to go over to the meadow and returning sent his son and hired man to look. Soon the news spread that Mr. Abbott was missing and men came from all sections.

By three o'clock there were as many as forty-five men scouring the woods. They found his tracks and followed him farther and farther up the river, at last into the new County road, so called. When he got into that he must have made a mistake for he went in the wrong direction for home. Then he came to a logging road which took him still farther from home, and away from the river.

About six o'clock Charles Norton and a party of men found him, away up on the side of the Howard Charles mountain, dead.

It is supposed that having good luck fishing he kept going farther up river, until finding it late he started to take a short cut home and went in the wrong direction, and that finding himself lost and traveling so far overgrown land, and brought on an attack of heart failure.

They thought he died instantly as his fish basket and rod were on his arm and he appeared to be asleep. They had to carry him some distance through the woods and took him to the road near Grover's bridge.

It was a dreadful shock to his wife and also to the whole community.

Mr. Abbott was a genial man and was universally liked by both young and old. He was a native of Lovell and was born here Feb. 10, 1844, and lived here until the opening of the war, when he enlisted in the 13th Maine Regt. and served over four years. Soon after his return from the army he went to Boston, where he engaged in the teaming business, which he followed for forty years, retiring only last December.

Some years ago he purchased a house at No. 4, which he repaired and remodelled to his liking, and has spent his summers since, in fact he was in the habit of coming a number of times in the year as he liked here very much.

In 1869 he married Susan Thomas of Byron and they had one son, William T. Abbott, who is engaged in the tea business in Boston. Besides his wife and son he leaves two granddaughters and three sisters, Mrs. Esther Berry of Sweden, Mrs. Seth Hutchins of Lovell and Mrs. Freeman Shute of Biddeford, besides many relatives and friends to mourn.

He was member of Washington lodge, F. & A. M., of Boston, Franklin lodge, No. 23, I. O. O. F., of Dorchester, Mass., and Gettysburg Post, No. 191, G. A. R., of Roxbury, Mass.

The funeral service was at his summer home, "The Sunning," Tuesday, July 20, at 2 o'clock p. m. and he was laid to rest in the cemetery at No. 4 by brothers of the G. A. R. The floral tributes were many and beautiful, silently testifying to the high regard in which he was held.

Word comes from the hospital that Charlie Harriman is about the same.

Mr. and Mrs. Henry Frank and son and Mrs. Mary E. Harriman of Westbrook, who have been stopping at Chas. Harriman's, went home Saturday.

Mrs. Emma Norton passed away, Saturday night, July 24, after a long and painful illness. The funeral was on Tuesday at 2 o'clock at her late home.

Mr. and Mrs. William T. Abbott and a party of friends from Boston were here to attend the funeral of his father, William H. Abbott; also Mr. and Mrs. Freeman Shute and Mrs. Anna Wormwood of Biddeford were here.

Mrs. Rachel Knight, who came to live at Lloyd Poor's a few months ago, died Sunday morning, July 15. The funeral was Tuesday at 10 a. m. at the house, and she was carried back to Sweden for burial. There were many beautiful flowers. Aunt Rachel, as she was commonly called, will long be remembered. She leaves many friends.

HARTFORD.

Elsie Palmer has been assisting Mrs. J. F. Palmer through haying.

Mr. Bartar and family of Auburn were visitors at F. W. Palmer's over Sunday.

Rev. L. M. Robinson has been at the Islands and South Paris the past two weeks.

Wilmer Braden is at work in haying for L. A. Keene. James Turpie is assisting M. F. Ford.

Clara and Una Chandler of Sumner have been guests of their uncle, M. F. Ford, for a week.

Mrs. B. F. Glover is in poor health. Her daughter, Mrs. Edith Sampson, has been with her a while.

Dr. C. H. Gibbs and daughter Lavenia visited relatives in Sumner, Hartford and Biddeford recently.

Your correspondent was delighted to receive a visit from Helen and Shirley Robinson of Arlington Heights, Mass.

Bernice L. Hall of Malden, Mass., has come to spend the remainder of the summer with her aunt, Mrs. L. A. Keene.

Mr. and Mrs. Isaac Ford of Massachusetts and Mrs. Frank Ryerson of Paris were in town a short time ago visiting relatives.

Mr. and Mrs. Frank Ryerson and little son have returned to their home in Turner, after spending two weeks with their parents, Mr. and Mrs. T. E. Ryerson.

Mrs. E. B. Rogers has an apple tree on his farm which has ten or a dozen bunches of blossoms at this writing and the tree is also loaded with apples. It is of the Fremont variety.

Mildred Keene, who has been a stenographer in Bethel for two years, is now on a trip to the Alaska-Yukon-Pacific Exposition. Cards received from her from Montreal, Omaha, Denver and Colorado Springs report a fine time.

Figures on file at the office of the State Insurance Commission show the amount of claims paid by life insurance organizations to people in Norway for 1908 were \$43,455; Fryeburg, \$20,880; Bridgton, \$19,932; Rumford, \$18,090; Rumford Falls, \$12,042.

CARD OF THANKS.

We wish to extend our most sincere thanks to the neighbors and friends who so kindly helped us in many ways to bury B. A. Rickett for comforting words, and to all who sent so many beautiful flowers, also the bears.

Mr. and Mrs. JOHN LEWIS AND CHILDREN.
Albany, Maine.

ALBANY.

Funeral of Hazel M. Lewis.
Hazel M. Lewis, daughter of Mr. and Mrs. John Lewis, passed away July 18th at the age of thirteen years, nine months and eighteen days. Her death came very sudden and was a great blow to her folks as she was sick but a few days. She was laid in a beautiful white casket and literally buried in flowers.

She was a sweet child always with a sunny disposition and a pleasant smile for everyone. She had a great many friends, young and old, and it seemed she was too good for this world but was to look for him.

She needed more in the home above. Beside a father, mother, two sisters and three brothers, she leaves many relatives and friends to mourn their loss.

The bearers were Linwood Flint, Leon Kimball, Edgar Sheard and Howard Allen. Rev. B. S. Rickett of Norway preached the farewell sermon and spoke many comforting words. She was laid at rest in the Bissetown cemetery. The following is a list of the flowers:

Mr. and Mrs. J. T. Lewis and Mary Davis—P

NORWAY AND VICINITY.

Hard Luck.
A Norway woman was told that when making jelly a little gelatine added would improve the jelly. She did it and now mourns the loss of six quarts of currants.

She says that while the jelly product is not handsome it is good eating, but pride will not allow her to use it for layer cakes, or Washington pies and the like where it would show for fear her reputation as a cook might suffer. She will use most of it for mince pies.

That is not all. She paid 14 cents a quart for the currants when an hour or two after the purchase a woman brought to her door some equally as good the selling price only 8 cents.

Llewellyn D. Cummings sprained his ankle a month or more ago and is still confined to crutches when he travels.

Lillian Hall, who has been in Norway since last autumn, is at home in Bridgton and expects her mother in a short time.

W. H. Foss of Mechanic Falls came to the Beal's Hotel as clerk last Friday and was there a couple days. John is now looking for a clerk.

A large hat has been left at the ADVERTISER office. It takes up a lot of room and the owner is requested to call for it or pay rent.

The Norway street sprinkler is well decorated with the Cole's Jewelry Store literature. It was put on there to be read. Read it and profit thereby.

Co. D boys to go to Wakefield, Mass., New England Military Rifle Association July 29-30; and at Camp Perry, Ohio, National Team Match beginning Aug. 23, are Capt. Moses P. Stiles, 1st Lieut. Lyman H. Daugherty, 2d Lieut. Charles A. Marston and Corp. Alton E. Whitehead. Co. C, 1st Lieut. John A. Hasty, Rumford Falls.

H. H. Andrews of Caloway, Neb., made us a pleasant call. He and his family have been East some little time. His wife and daughter are now at Orono, visiting the family and friends in that city. Mrs. Andrews is a sister of Hon. Edgar E. Ring, chairman of the State Forest Commissioners and a member of the Fish and Game Commissioners. Mr. Andrews has spent some time there and was here visiting the scenes of his birthplace, Otisfield, and his relatives in this vicinity. He has been West about thirty years but has visited the East frequently. He is a broker, banker and dealer in real estate. Crops, he says, are looking splendidly through the West. He started for Nebraska last week.

Henry F. FAVOR of Brockton, Mass., arrived here Thursday and returned home with his family who have been visiting in this vicinity for the past four weeks, on Monday. Mr. FAVOR reads the ADVERTISER carefully each week and keeps posted, as far as the paper goes, on the news in this vicinity. Ten years ago he left us to go into the city to work as a carpenter, during which time he has resided in Brockton and built a nice two family house for himself near the famous Brockton Fair Grounds. He occupies a position as foreman for J. B. Nye, contractor and builder in that city, which position he has held for several years. His family consists of a wife and three children, two boys and one girl.

The funeral of Richard Schaefer was held at the residence of J. F. Bolster undertaker, last Friday, and was attended by the hotel people and friends with whom he had become acquainted. A delegation of Masons of Oxford Lodge had charge of the funeral. Rev. B. S. Rideout read the Scripture, made some remarks and a prayer. He was buried in the Rustfield cemetery. None of his relatives were present. He has a father, 84 years of age who lives in West Roxbury, Mass., also one son about 21 years of age who lives in New York. During the time Schaefer was at the hotel, he made friends with everyone and was one of the most popular clerks ever at the Beal's Hotel. He was a member of the Germania Lodge of Masons of Boston. His grave will be marked with a modest headstone erected by his Masonic friends and others.

Alex. MacLean at Nerve-Bass is entertaining his friends. Among the recent arrivals are Mr. and Mrs. Alvin Saunders of Wakefield, Mass., who are enjoying their outing very much. Among the keep-sakes is a silver medal received by him in 1887 as a first prize in wrestling. It was offered by the Royal Dixon Lodge of Odd Fellows of the Arlisan Place Academy, Dumbarton on the Clyde. Mr. MacLean's name is nicely engraved on the reverse side. He was very much surprised to ascertain that Mr. MacLean is nearly 70 years of age, as we supposed him to be a man right around 50. He tells us that he expects to live to be 100, as his father attained the age of 108 and his grandfather 110. He came to this country from Scotland 20 years ago and until he retired he was engaged in the manufacture of paper and has been so successful that he believes he has a right to retire and take things easy, to fish, gather flowers and entertain his friends.

PORCUPINES WANTED Can use live, uninjured, well quilled porcupines, for a short time. Linwood Flint, No. Waterford, Me. 27-1

Championship Series.

Radcliffe 1—Mechanic Falls 1.

The first contest in a series to determine the championship of Western Maine was played to the limit when Radcliffe of Norway and Mechanic Falls battled for more than nine innings in the race for a decision.

Well, that scrimmage on the fair grounds last Saturday afternoon was certainly a generous bite of good base ball sandwiched between excusable errors and umpire hold-ups; the whole being well soaked in rain water from intermittent showers generously furnished by an unruly weather man. A large crowd patiently watched the battle through the rain drops and appeared disappointed even under the most congenial conditions when Umpire Clark was forced to call the game in the first half of the tenth inning, with two Mechanic Falls batters down and one safely lodged on first. The score being 1-1 and honors evenly divided from the pitchers' standpoint so far as hits were concerned, but when strike-outs are mentioned, that agile, colored twirler, Adams, had the larger number to his credit.

Both teams are so well matched one cannot safely hope out what the result might have been in the end. It was a satisfactory contest however, even though decided results failed to come forth. Both line-ups were arranged and critically analyzed for the time being, so each team must dig right down hard to keep away from the heels of the other.

One point was brought out in this rain storm game; it is this: "Tool" Bill Leith and Percy Adams will be the feature acts in future events. It will be up to each opposing twirler as there is little difference in the strength of either line-up behind the pitchers' box, that is so far as results go to show in this, the first game in the series.

Now for the game: Mechanic Falls were the first batters up and they started in briskly, but it was quickly over as Furlington put up a fly to Gammon; Adams cracked one to Harrison who got across to Gammon in time for the put out; Barker landed a hot one to Leith who nailed it to first base for the third one down.

In the Radcliffe's first trip Harrison opened to Lawler and was thrown out at first base; Clason gained first on Barker's error, stole second but remained there for Lanan fanned and Roy Cole went out on a perpendicular fly to Pitcher Adams.

In the second Brigham bunted a grounder to Lafrance and got out at first; Lizzotte, the Lewiston man, received a pass but couldn't possibly find second base because Wescott and Tilton each pounded three times to no avail.

Radcliffe opened their second inning with "Uncle" Bill up. He found the ball squarely and sent it to Lawler who threw to Barker, catching the runner at first; Young struck out; Gammon gathered himself and drew a neat single (the first one for the game), Lafrance faced Adams and did the same trick; King tried hard to pry over the line and old thing which might bring in the base runners, but the best offering was a grounder to Brigham who passed it over to Barker, putting King out at first. This closed the inning with two Norwayers on bases.

The fifth was also a quick one for Mechanic Falls, Lawler was out on a fly to Clason; Weston fled to Lafrance; Furlington sent up a ball which Clason smothered and closed this short half. King started the fifth for the home delegation with a high fly into the field which was held by Westcott; Harrison struck out and Clason was out on a drive to Wescott in right field.

The sixth assembly was held on a fall of rain and from this time on base ball proved a lottery, as clean hitting and fielding was something in the line of jugglery, yet the errors recorded were made earlier in the game and none came during the worst conditions.

In the seventh with Radcliffe up and one gone, Gammon hit sharply through Adams and connected with "Tool" Clark. This connection stopped the ball so Adams threw to first catching Gammon. Umpire Clark declared the runner safe, Umpire Davis said "out" and stuck to his decision even against wiser heads in the game, merely because no one could produce a rule book showing the course to pursue in that kind of a play. A wordy argument ensued in which many let out hot air and a general hold up occurred. Umpire Clark pulled the match on Mechanic Falls and when the visitors learned that no game meant no "mon" they instantly felt the force of the argument and got into the game, conceding Gammon safe on first by virtue of Rule 53, sec. 6. A delegation of Masons of Oxford Lodge had charge of the funeral. Rev. B. S. Rideout read the Scripture, made some remarks and a prayer. He was buried in the Rustfield cemetery. None of his relatives were present. He has a father, 84 years of age who lives in West Roxbury, Mass., also one son about 21 years of age who lives in New York. During the time Schaefer was at the hotel, he made friends with everyone and was one of the most popular clerks ever at the Beal's Hotel. He was a member of the Germania Lodge of Masons of Boston. His grave will be marked with a modest headstone erected by his Masonic friends and others.

Lawler started the third for Mechanic Falls but "Kid" Harrison lined him out to Gammon; Weston was more fortunate on his lay-out to short stop. "Kid" got the ball all right but made a wild heave to Gammon so the runner was safe and actually gained second base; Lawler, Lizzotte and Adams, receiving his pass, but Lafrance the next batter went out on three strikes and Gammon was forced at second for the third out on a fielders choice from King's bat.

Lawler started the third for Mechanic Falls but "Kid" Harrison lined him out to Gammon; Weston was more fortunate on his lay-out to short stop. "Kid" got the ball all right but made a wild heave to Gammon so the runner was safe and actually gained second base; Lawler, Lizzotte and Adams, receiving his pass, but Lafrance the next batter went out on three strikes and Gammon was forced at second for the third out on a fielders choice from King's bat.

Mechanic Falls started a bid for something material in fourth. Brigham went out via Harrison to Gammon, Lizzotte knocked an easy one to Lafrance but he threw the wet ball more than 20 feet over Gammon's head, giving the runner second, but here he expired for Leith struck out Wescott and Tilton put up a high to Clason. Radcliffe was re-ordered in quick order in their fourth. Young went out from Adams to Barker; Gammon put a fly into Barker's hands; Freddie Lafrance struck out.

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

to be Barker's third strike, Lanan was waiting though, and plastered the sphere on Adams pate with no uncertain action, gaining an extra put out even if not needed.

The ninth for Radcliffe opened in a glorious manner. Roy Cole knocked out a high one into center for Furlington to grapple; Uncle Bill picked away a neat hit and stole second; Young fanned; Gammon baited patiently and drew a pass but Lafrance couldn't rise to meet the requirements and was thrown out at first by Adams. This left two men on bases and was the last opportunity to change the results, for the game was called while the visitors were at the bat in their tenth on uneven innings.

Summary—Bases on balls, off Leith 2, off Adams 1. Struck out by Leith 8, by Adams 4, by Lafrance 1, by Furlington 1. Steals, bases, errors, etc., none. First base on errors, Radcliffe 2, Mechanic Falls 2. Left on bases, Lafrance 5, Mechanic Falls 7. Umpires, Duane, Oxford, Clark, South Paris. Time 1 hour, 50 minutes. Score, Chandler.

Notes.
Fans who are a bit superstitious should know that Radcliffe played their thirteenth game last Saturday. This may account for much of the hard luck.

Mechanic Falls was well represented by a large delegation of rooters. They secured a fifty cent rate for the round trip, using the regular passenger train west and returned after the game on a special. Let us do likewise next Saturday when the Radcliffe go to the Falls, and send down a regular old-fashioned gathering.

Percy Adams' shin bones must be made of Kodel. Did you notice that battered ball take a jump from his leg cushion to a point not far from the catcher's position.

"Uncle" Bill has pitched twelve games and only fifteen runs have been scored against him to date. He has struck out sixty-seven, allowed sixty-six singles, passed ten and hit three.

Frank Lanan has gained the reputation of being a dead shot on a throw to bases. Thus there are only a few who take a chance of stealing second, and even these never try the trick after their first attempts.

Remember that suit case full of rule books next Saturday. Louie Clark won't need one but there are others to whom a presentation copy might prove acceptable.

Lizzotte of Lewiston is becoming a familiar figure with us this season. He has appeared with the Pilgrims, Radcliffe and Mechanic Falls, and in fact shines as a general utility player. He has been a long chum, that Percy Adams took when he tried to force his run with two men down and two strikes called on the batter. A punt or the catcher dropping ball would have made the steal safe, as it was neither happened and the runner got the ball right on the "plysog."

W. E. Bartlett, who has been living at the Beal's Hotel for the past six months, has gone to Provincetown, Mass.

Mrs. F. H. Lovering and daughter, Mrs. Chester B. Lovering of West Medford, Mass., are visiting at F. H. Noyes'.

C. B. Cummings & Sons say they have no idea of going out of the business of the turning of dowels at their lower mill but they will hereafter use water power instead of steam power. Some might infer from the item in the last paper that they were to indefinitely close their mill, which is not correct.

New Owners for Lakeside Farm.

W. A. Brady of New York has bought the A. W. Thomas, Lakeside Farm, 125 acres, on Crockett Ridge. It is one of the prettiest summer locations in Oxford County, as it is near by the lake and overlooks the distant hills and mountains.

Mr. Brady has been coming here for the past six years and likes so well that he and some others have bought it. Those interested with him are William Wallace and Horace S. Waite of New Jersey. These men are engaged in a wholesale flour and produce business in New York City and have spent their summers here with Mr. Thomas for several years past.

The owners of the place will change the name from Lakeside Farm to that of Grand View and they have in mind the development of the water front for about a half mile and cutting it up for cottage lots. They have a number of city friends who would be glad to come into the country and own a cottage where there is such good fishing and boating as in the lake here.

They will undoubtedly put their farm and all of its holdings into a stock company, capitalized at a reasonable amount and selling the stock as there may be demand for it. The buildings on the farm will be occupied as a summer resort for the "colony" and garden vegetables, milk and cream will be raised to supply the cottagers.

They will take possession of the farm about the first of October. It has been hinted, and some have said, that Mr. Thomas will remain on the place and take charge of it for them for the coming winter. Whether this is a fact or not, we cannot say, but Mr. and Mrs. Thomas would make excellent people for the position.

He Could Draw.

Artemus Ward on His Own Connection with the Art.

On the occasion of Artemus Ward's professional visit to London, which occurred not long before his death, J. E. Preston Muddock says in his book, "Pages From an Adventurous Life," that the American humorist's advertisements on his "show" were full of funny surprises as the lectures themselves. One that tickled the general was this:

"Artemus Ward delivered Lectures Before All the Crowds of the Empire Ever Thought of Delivering Lectures." And an excerpt from his lecture on "Drawing" is quoted by Mr. Muddock as a particularly delightful bit.

"I haven't distinguished myself as an artist," Ward said in his inimitable way, "but have always been mixed up in art. I have an uncle who takes photographs in his spare moments and I have a servant who takes everything he can lay his hands on at any moment."

"At a very tender age I could draw on wood. With a stick I once drew a small cart load of raw turpentine over a wooden bridge. It was a raw morning. The people of the village recognized me. They said it was a raw turpentine drawing. That shows how faithfully I had copied nature. I drew their heads in it, so you see there was a lot of drawing in it."

"The villagers, with the wonderful discernment peculiar to villagers, said I had a future before me. As I was walking backward when I made my drawing I replied that I thought that my future must be behind me."

BUCKFIELD.

Mrs. Laughton of Portland, a sister of B. E. Gerrish, has been visiting relatives here.

A party of young ladies, seven in all, spent a most enjoyable time in Camp Indigestion at North Pond.

C. H. Prince went to Madison Wednesday with his automobile, returning with the family of his son, Harry.

The ladies of the Nezinecot History Club enjoyed a picnic on the banks of the Nezinecot on Thursday, the 22 d.

Alfred Cole has just published a new line of souvenir views of Buckfield in colored post cards, which includes many familiar scenes.

The annual meeting of the Nezinecot History Club was held with Mrs. C. H. Prince. The following officers were elected: President, Mrs. E. A. Prince; Vice President, Mrs. Carrie Spaulding; Secretary, Mrs. E. J. Waite.

FRYEBURG.

Frances Tradick of Malden, has been a guest of Miss Wilson at the parsonage.

Annie Walker of Boston, is spending her vacation with her cousin, Mrs. S. A. Page, and family.

Mrs. Atkinson and little Roger went to New York with Dr. Atkinson, who has spent his vacation here.

Mrs. Louis Phillips Hall and little son, Phillips, has spent a few days at her father's, J. F. Phillips.

LYNCHVILLE.

Alphonso McAllister has purchased a cow.

Perley Adams visited his parental home last week.

Hector-Ross has sold his cow to Addison Holt.

Mrs. Marion Cordwell is stopping with her son, Elmer, for a while.

Mrs. Henry Plummer has been entertaining company for the past week.

Florence McKenzie called on her friend, Nellie Rose, one day last week.

Mrs. Charles Jordan and Mrs. Elmer McAllister visited relatives in this place last week.

GILEAD.

Elizabeth and Mildred Davies are with their mother.

Charlotte Davies will spend her vacation in Carbondale Penn.

Mrs. T. D. Davies is spending the summer in Pennsylvania a guest of the Davies' family.

John Davies visited in New Hampshire last week, returning to Carbondale July 5th. He reports a fine trip, cool and exceptionally comfortable for this time of year.

If She Should Tell.

The telephone girl sits still in her chair and listens to voices from everywhere. She hears all the gossip, she hears all the news, she knows who is happy and who has the blues, she knows all our sorrows, and knows all our joys; she knows every girl who is chasing the boys, she knows of our troubles, she knows of our strife; she knows every man who is mean to his wife; she knows every time we are out with the boys, she hears the excuses each fellow employs, she knows every man who's inclined to be "fast"; in fact there's a secret "nasth" each saucy curl of the quiet, demure looking telephone girl.

If the telephone girl would tell all she knows, it would turn half our friends into bitterest foes; she would sow a small wind that would soon be a gale; engulf us in trouble and land us in jail; she could let go a story (which, gaining in force) would cause half our wives to sue for divorce; she could get all the churches mixed up in a fight and turn all our days into sorrowing night.

In fact she could keep the whole town in a stew; if she told one-tenth part of the things that she knew. Now doesn't it make your devoted head whirl when you think what you owe to the telephone girl?

Drowned.

Harry Smith, a river driver, was drowned at the toll bridge at Dixfield about 10 o'clock Friday forenoon, while removing logs from one of the bridge piers. Every effort was made to rescue the man, but in vain. Arthur Stowell dove and brought up the body but life was extinct. The young man's father was with him on the drive. He is also survived by a mother and sister in New Hampshire.

Past Tenses.

"It sees, however," said the distinguished foreigner as he concluded his story, "simply a matter of hearsay." "You mean 'hearsay,' of course, count?"

"Ah, but zis was told me some time ago!"

Many object lessons in the rapidity with which money accumulates have been given us, but each time we come across a fresh instance, it seems more remarkable than those we have heard before. A man came into one of our banks, the other day, and closed out a savings account. The account was started in 1838, by the depositing of \$5.00. A dollar or two at a time was added at intervals along the intervening years, and considerably later when the young man got to earning money for himself, larger sums were put in. But altogether only \$250 had been deposited. When he came to draw it out, he found that this had grown until it amounted to \$700. The moral is obvious.

Travelers' Cheques of the American Bankers' Association

Membership: 10,000 Banks and Bankers.

Money being every traveler's first necessity, it is extremely important that his funds be in a form which is at once

**The Safest
Most Available
Most Convenient
AND
Most Economical**

These cheques fulfil all the requirements, and constitute what has been appropriately called "The Perfect International Money".

These cheques eliminate vexatious delays, inconvenience and embarrassment to travelers in obtaining funds in all foreign countries and in all parts of the United States. Readily cashed at full face value by Banks, Railroads, Steamship Companies, Hotels and Stores throughout the world, they do not require personal introduction and are perfectly safe.

A booklet fully describing these cheques will be sent on request.

NORWAY, ME.

A Visit at Larkin's.

We all know the word Larkin through the girls and boys asking us to go to Larkin's. They say it is a very nice place and get a Larkin prize. Here is a girl who attended a missionary meeting there and this is how she describes what she saw—Would you believe it? The building is a good time was enjoyed in the Administration Building of the Larkin Company at Buffalo, the "Home of the Larkin Idea." Well, why not? Do not our missionaries tell us that while it is necessary to carry the Bible in one hand, it is well to carry a cake of soap in the other? From all I've heard and read, a bottle of Larkin's perfumery wouldn't come amiss, either. But really and seriously, a missionary service held in the Larkin establishment is one of the most natural things in the world.

We had expected to see an ordinary business block, but instead, here was an imposing and handsome building large enough to make it the business home of its office force of 1,200 men, and an absolutely fireproof; and it is here that thousands of orders are checked, recorded and passed to the proper departments in the factories for filling and shipping.

How I wish that you could have stood with us in that great Larkin Company! You, too, could have looked up and up to find that it was the sky itself whose light was shining all the way down, furnishing brightness and cheer to the five stories of offices surrounding the court.

You, too, could have looked with charmed surprise at the rhododendrons, the palms, azaleas, ferns—the ever-so-many clinging vines and bright blossoms which all lent their beauty to this place of business. You, too, could have read with us the beautiful mottoes and texts which illuminate the walls around the court, and which cannot fail to inspire all who read them to better and nobler ideals.

It being luncheon time we were taken to the top floor where we found the restaurant. Now you needn't picture to yourself any little seven-by-nine luncheon room, for in this dining room an average of 700 people lunch every day. Like the office space in the different stories of the building, it surrounds the same delightful court of which I have told you.

It is a most attractive place, the walls hung with pictures, and tables and chairs in Mission style. The food which was served, in up-to-date fashion on dainties instead of table cloths; and the luncheon itself was delicious. In addition to the soups, meats, salads and vegetables there were lots of the cakes, ice cream and the like. If you belonged to the Larkin office force, you could have a generous serving of grape-fruit for five cents—just think of it! And here in Maine we must pay twenty or twenty-five cents at most restaurants.

While we were at luncheon, we guests pined our patient and courteous host with hundreds of questions—figuratively speaking—and we learned ever so many other interesting facts. Among other things we found that the dining room could be transformed into an auditorium for a lecture or a sermon in short order. It seems that the seats and tables are so constructed that they can easily be made to serve as a comfortable and handsome pew and an audience of a thousand or so can thus be accommodated.

We learned, too, about many of the smaller details of the business carried on here—that there are one hundred and fifty telephones—that there is an electric clock which automatically regulates all other time-pieces used in this and the other buildings owned by the company—that there is a library of a thousand volumes for the use of the employees—that there are one hundred and fifty stenographers—that four thousand individual towels are used daily—that the letters are dictated to stenographers, after which the wax cylinders upon which the records have been made are taken by the stenographers; really the letters are reproduced just as music and speeches are reproduced from the ordinary phonograph record, except that instead of using a horn the sounds are carried to the ears of those who do the typewriting by a tube from the sound box.

I wonder if you'll believe me when I tell you that all the windows of this Administration Building are tightly sealed with double glass, so that the noise and dust and smoke of the city can't get in side? Are you gasping for air? And are you sympathizing with the employees whom you are imagining as hermetically sealed up?

Well, you may take a good long breath as I tell you that not only that but it is air that's been washed! Probably there is a good deal more of it, and of a much purer quality than you have in your rooms at home. And here's another advantage; this air which has been washed is heated when the weather is cold, and cooled when the weather is warm. You will see very plainly, I think, that we ourselves are the objects of sympathy, instead of the stenographers and typewriter operators who work in this twentieth century office building.

When we guests arose from the luncheon table where we had been so delightfully entertained by our host, each of us was presented with a most fascinating looking package tied with a deep red ribbon. I tell you, girls, it was awfully hard to wait until bed-time before I could have even a little peep to see what was inside that mysterious bundle!

And the missionary meeting? O, no! I haven't forgotten it; I'm going to tell you about it just as soon as I inform you that a missionary meeting is held here every month in one of the school rooms connected with the Administration Building; and in which persons entering the employment of the Larkin Company are about to be transferred from one department to another are given special training for their new duties. In this Educational Department lessons in short-hand, painting, bookkeeping and other branches of study are given employees; and there is also a Young Woman's Christian Association Branch with a paid secretary.

It was a very agreeable surprise to find that the speaker at the missionary meeting was no other than Clara Righter, the missionary who has been engaged to represent Foreign Missions at the Basket Meetings in Maine.

So you may imagine that I looked and listened with a good deal of interest. From the moment she appeared, dressed in her Chinese coat, and made us all laugh as she told us how she got the best of the Chinese dogs by giving them a kind of candy so sticky that they couldn't open their mouths wide enough to bite her as she made her round of calls. The closest her dress when she made us all cry over the poor, ill-treated Chinese girl, who upon her adoption into Miss Righter's big and happy family of girls, exclaimed, "For the first time in my life

my heart is warm!" she had the rapid attention of all who were there. How glad I was that she was to come to Maine! If any of you girls have an opportunity, do go and see her and hear her tell of her happy work in China.

After the missionary meeting we went up to the roof-garden and saw the conservatories and the tiled promenades—all this arranged for the recreation of the employees.

As we descended we had still further glimpses of what this Company does for the comfort of its helpers; there, a cozy rest-room; here, a sick-room with a trained nurse with all sorts of appliances for emergencies.

In the year 1875 the original Larkin establishment was just a two story building occupying only 1,600 square feet; and that now the factory buildings together with the Administration Building cover fifty acres of floor space. We would have gone over the factories where the well-known products of the Larkin Company are made but it was now time to return to the meeting at the church, which already had begun.

If I knew you, I should know what was in that package; so I will tell you at once. There was a box of fragrant Talcum Powder, a box of three cakes of sandal-wood soap, a bottle of violet toilet-water and an attractive booklet which tells all about the Larkin Company; and among a great many other pictures, there is one showing the little two story building where Mr. Larkin began his business.

HEBRON.

Mr. and Mrs. Fred Bartlett and son of Boston have been guests of Mr. and Mrs. W. A. Bartlett.

Mrs. Nancy Whitman and Nellie Whitman of South Paris visited Mrs. Louise Beare. Mrs. Whitman is over 80 years of age. She came from South Paris and back, the same day, a distance of 12 miles.

W. W. Fairclough of Richmond has been hired for instructor of modern languages at Hebron Academy. Mr. Fairclough is a graduate of Bowdoin '08. He was principal of Topsham high school last year.

How to Live Long.

There seems to be a strong desire among mankind to lengthen human life. The great physicians and scientists are industriously working away at the problem, and many of them have contributed something toward its solution.

Some have found unnecessary parts of the human body which they want out off. Others have discovered methods for killing the germs of diseases which prey upon the human system. Hundreds of family physicians and health officers are using measures which prevent serious illness. All these methods count in the sum total of the means by which life is lengthened.

But perhaps the measure adopted by a lady who recently died in one of our Eastern States at the age of one hundred and five is the most useful of all. She associated with the young people about her, took an interest in all that concerned them and was alive to everything going on around her.

A healthy mental condition is now regarded of first importance in securing and maintaining physical health. And cheerful activity is an essential to mental strength and vigor. So the men and women of advancing years who retain their interest in things that are of chief concern to people in their prime are most likely to be cheerfully active mentally and physically and to live long lives.

For the world in general this theory offers no small reward. Greater and bigger interests than ever were before are all around us. If we do not allow them to wear upon our nerves and oppress us we should be able to use them to such pleasant advantage that we can find delight in them for many years. Golf has permitted the old man to continue, or, perhaps, to take up for the first time a career of sport. The automobile has enabled old men and women to visit the interesting parts of that section of the country in which they live. The telephone makes it easy to transact business, and the better class of phonographs brings excellent music within reach of the people who live far from musical centres.

Because the world has so many bigger and better things in it than ever before, people are living longer, and the physicians and scientists who are discovering methods for prolonging life are merely expressing the spirit of the age.

Take an interest in one or many of the activities of the age and maintain a youthful attitude toward your fellows. Common sense and the physicians should do the rest. Under these conditions you should be able to live many interesting, valuable and delightful years.

Couldn't Josh Him.

A young country chap once got a job in a city grocery. He was very cautious in his new berth, and he told him at home that the city people would try to josh him because he was green. He kept a sharp lookout accordingly for joshers.

A sober old maid entered the grocery one morning.

"I want some birdseed, please," she said.

The new clerk sneered and answered scornfully:

"No, ye don't lady. Ye can't josh me. Birds grow from eggs, not seeds."

Lumber Inspected for Brown-tails.

The Boston & Maine railroad has entered a fight against brown-tail moths and has issued pamphlets to its agents all over the system. In this booklet the company announces the road's determination to prevent the spread of the moth and also the means to be adopted in confining the pests to the districts already infested.

From now on no freight agent will permit a forest product to be shipped unless the material has been inspected by the proper authorities. Authority for them to ship the goods will be contained in a certificate of inspection which will be properly issued. Without the certificate no forest material will be allowed in any building or on the grounds belonging to the company. The shipments included in the order are lumber, cordwood, railroad ties, tree bark, telegraph poles, fence posts, splices, logs, staves and slabs or any other material suspected of being infested with the moth.

The following are among the freight stations named in the infested district: Agamenticus, Alfred, Biddeford on both divisions, Eliot, Kennebunk Beach, Kennebunkport, Kennebunk, North Berwick, Old Orchard, Pine Point, Saco on both divisions, South Berwick, Springvale, Wells on both divisions, West Kennebunk.

Keeping Milk in Summer.

A serious problem comes to every farm dairyman in the proper care and treatment of milk during the summer season. For all who find this a difficult task a press bulletin issued by the Oklahoma Experiment Station offers many valuable suggestions.

It is impossible, in practical dairy work, entirely to prevent bacteria from falling into the milk, but if the following suggestions are heeded the number gaining entrance and their rate of development will be greatly lessened:

1. Do not feed dry hay or fodder at milking time, and to prevent dust from rising from the floor use the sprinkling can, for dust means bacteria.

2. Do not brush the cow just before or at the time of milking, for the dead skin and hairs carrying thousands of bacteria will be loosened ready to drop into the pail.

3. Do not permit the cow to switch her tail over the milk pail, for she is certain to throw hundreds of bacteria into the milk at every flip.

4. Do not use soiled cloths or add with milk or water so that drops fall into the pail, but moisten with a cloth for a moist surface does not readily permit bacteria to leave it.

5. Do not regard milking as a dirty task and wear old and filthy clothes, for the handling of food for human beings should be made a cleanly task.

6. Do not wash pails and cans with cold water but scald with boiling water and steam; and by all means avoid rinsing with cold water usually containing several thousand bacteria.

7. Do not wait to finish milking before beginning the cooling of the milk, but set the can in a tub of cold water so that each cow's milk will be cooled immediately after milking; for a high temperature causes bacteria to multiply very rapidly.

8. Do not fail to thoroughly clean and scald the parts of the separator each time it is used, for bacteria thrive in the separator slime.

Referring to some methods in common use for the preservation of milk we find the bulletin taking this ground:

The heating of milk to destroy bacteria is the use of preservatives to prevent their growth has been resorted to by neither of these take the place of cleanliness. The first injures the quality of the milk, the second makes it dangerous to health, and is prevented by having the milk heated to a temperature of 105° F. for a period of 15 minutes. Milk obtained from tested herds under the proper sanitary conditions will, if kept at as low a temperature as possible, seldom need to be pasteurized. It is as safe as any milk that can be obtained. Prevention is worth a pound of cure."

A Novel Idea.

It is free and deeply interests everybody who has aches or pains, or who is weak and sickly. Anyone can learn the secret and quickest means to get strong and well by accepting that splendid free offer of Dr. Greene of 34 Temple Place, Boston, Mass. He has established a system of letter correspondence through which all sick and suffering people can learn exactly what ails them, and how to get well, without expense and without leaving their homes. All they have to do is write to the Doctor, stating each symptom from which they are suffering. He gives the greatest care and attention to every letter and tells the cause of each symptom so plainly that patients understand instantly just what ails them. It is a splendid opportunity for those who cannot afford the time or expense to go to the city. Dr. Greene makes a specialty of curing patients through letter correspondence. He is the most successful specialist in curing nervous and chronic diseases, and is the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy.

Write today for Free bottle of Dr. Greene's Laxura for all stomach, liver and bowel trouble.

A large beetle, with long mandibles, was recently discovered in Saco killing brown-tail moths. It is supposed to be one of the parasitic insects supplied by government officials to fight the moth nuisance. The parasite, if that is what he is, seems to kill the moths, but does not eat them. His mandibles were white with the remains of moths.

An inquirer wants to know where the liars go to, but up to date there is no evidence they have gone anywhere.

Ohio Wheat Holds Its Own.

John W. Burk, of Ohio, says Farmers Should Increase Acreage.

It is interesting to note—in view of the exploitation of the west and northwest as the great wheat country of America—that one of the finest flours made in the United States is an Ohio product from start to finish. And that one of the partners of the firm that makes it is a president of the Millers' National Federation whose membership includes every prominent miller in the United States.

Mr. John W. Burk, of the firm of Ansted & Burk, making William Tell flour, has an experience of 45 years. He knows the flour business down to the minutest detail, and personally inspects all the wheat that goes into his famous flour.

Mr. Burk says that the bread making qualities of flour depend entirely on the wheat that goes into it, and that Ohio soil produces a wheat that hasn't a rival in the whole country.

Ohio Red Winter Wheat makes flour that the housekeeper plus her faith to forever after the first sack—and it is the only kind that goes into William Tell flour. It is so basic that Ohio can't raise enough wheat to let the entire country get a chance to try William Tell flour.

But Mr. Burk doesn't find all Ohio Red Winter wheat up to his exacting standard. He says that Ansted & Burk are not trying to make the "most" flour, but the best—and that if he can't get wheat that suits him, he will make less flour.

Ansted & Burk have one of the most up-to-date mills in the country. If every housekeeper could see how each sack of William Tell flour was made, she would enjoy it all the more. This is one of the industries that Ohioans should be proud of.

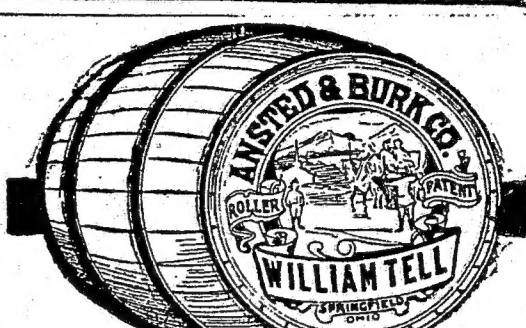

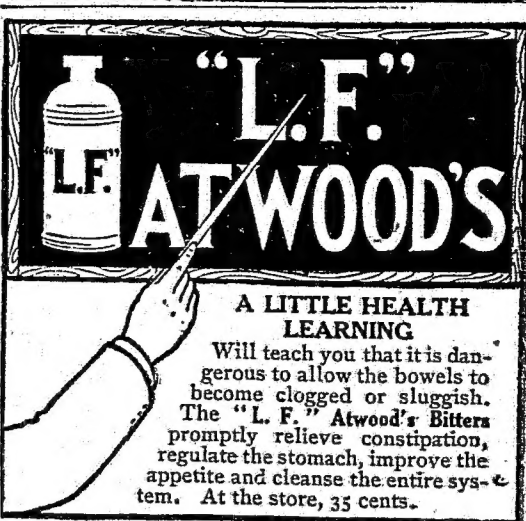

And she surely are. Mr. Burk says that they never have been able to keep up with the demand for William Tell flour. It's up to the farmers to grow more Red Winter wheat and to see that it's the superior quality that Mr. Burk demands.

SCOTT'S EMULSION

stops loss of flesh in babies and children and in adults in summer as well as winter. Some people have gained a pound a day while taking it.

Take it in a little cold water or milk. Get a small bottle now. All Druggists.

THE STANDARD OF THE WORLD.

Buy a Barrel of This Flour

You will find it real economy to buy the famous William Tell Flour by the barrel.

You will not only protect yourself against advances in price due to "wheat corners" and crop conditions, but you will always be sure of the finest grained bread—the whitest bread—the lightest biscuit—the most delicious pastry that can be baked.

Note how much cleaner William Tell is than other flours—due to the costly equipment of the Ansted & Burk Company's mills for protecting the grain and flour in grinding.

Ask your dealer and insist on having—

William Tell

NORTH LOVELL.
A Terrific Shower.
 During the terrific thunder shower Friday evening, July 16, the dwelling house of Perley McKee was struck by lightning, doing some damage, but not setting fire to the buildings. The lightning struck the covered telephone wire that is attached to the house, severed both wires above the telephone machine, burned out the carbon, thus running along several feet on the wire outside of the house, broke the wire again, just over the door that enters the dining room, then about seven feet from the door where the water pipe is laid made a hole in the ground some four feet deep and six inches in diameter. One corner of the screen door was shattered, the casings around the door splintered and partly torn off, clapboards broken and torn off and quite a hole made in the house beside the door.
 Mr. McKee was looking out through the screen door when the lightning struck and it was a miracle that he was not killed as the end of the broken wire was close to his face. He and his wife were dazed but not unconscious. They are both in poor health and have suffered considerably from the shock.
 During the shower the lightning struck three telephone poles near Perley McKee's and M. A. Allen's and an apple tree opposite Alvin Gammon's house. Mr. Allen was quite severely shocked when the telephone pole opposite his house was struck. It was fortunate no one was killed and that there were no buildings burned as it was the worst shower that has passed over this place for years.
 Mrs. Lewis E. McAllister is seriously ill.
 Lottie Harriman is at home, spending her vacation.
 M. A. Allen has sold his farm to a Mr. Wildberg of Massachusetts.
 Mrs. Eunice Richardson of Sweden has her sister, Mrs. Smith and daughter

from Pennsylvania have been visiting at C. F. Wilson's. Mrs. Emma Wilson came home from Norway to help entertain their guests and enjoy their society as it has been several years since Mrs. Smith and daughter have visited their relatives here.
 A Mr. Peterson and family are boarding at G. P. McAllister's.
 Mrs. Nancy Thomas is visiting Mrs. Ina Elliott at West Stoneham.
 Capt. W. C. Brooks is staying with his daughter, Mrs. Isabel Brooks.
 Maudie McAllister is visiting her parents, Mr. and Mrs. Elden McAllister.
 Frank and Arthur Pickering of Chatham, N. H., are doing some fine stone work for the Gaacelous.
NORTH HARTFORD.
 Mrs. C. R. Mendall has ten boarders; Mrs. Daniel Neal also has four.
 George Corliss is entertaining his uncle, Mr. Holmes of Cambridge, Mass.
 Chas. Hutchinson has been visiting relatives and friends in Wales for a few days.
 Stella Gatchell of Peru has been the guest of Rena Carter and Ina Burgess recently.
 Mr. and Mrs. H. B. Jacobs are receiving a visit from the former's sister, Mrs. Carrie Andrews of Rumford.
 Mr. and Mrs. T. B. W. Stetson and daughter Marion visited relatives and friends in Norway last week.
 Herbert Carver, who has been working in the woods at Andover, has come home to assist his mother, Mrs. Ellen Carver, through baying.
 Alton Jacobs and Carl Andrews visited Saturday night and Sunday with the former's brother and wife, Mr. and Mrs. Arthur Jacobs of Buckfield.
 George Burgess has bought a farm over by William Elsbet's, known as the Bonello Keene farm and moved his family there Wednesday of this week.

WEST PARIS.
The Long Distance Footman.
 "Joseph Mikulec, champion long distance walker, started from Grand, Austrian Province, on Feb. 5, 1908, to walk 25,000 miles in five years. So far he has walked over 18,500 miles and worn out 40 pairs of shoes. Joe started without money and is making his way selling post cards, with the above account printed beneath his picture. Mr. Mikulec reached here last Thursday morning and took breakfast with Mr. and Mrs. C. S. Bacon. He says he has already gained on his undertaking and expects to complete his "around the world" trip by 1911.
 Mrs. A. D. Swift has just returned from a two weeks' visit in Portland.
 Leo Marston and family have moved to Paris Hill. Marston will work for the Paris Manufacturing Co. at South Paris.
 Mr. and Mrs. S. W. Dunham went last Friday for a week with their son, H. R. Dunham, at his summer cottage at Seguinland.
 Minnie Tibbetts of Portland has been spending a week with her friends, Mrs. F. E. Wheeler. She returned this week Tuesday.
 Bertha Packard, who has been helping her cousin, Mrs. O. H. Marston for several weeks, has returned to her home at Lisbon Falls.
 Lilly Price of Richmond, one of our former grammar school teachers, came last Saturday and is visiting at J. R. Tucker's and with other friends.
 Mr. and Mrs. L. C. Bates are at their camp at Redding with Vernal W. Bates and family from New Haven, Conn. They will spend several weeks there.
 The Universalist preaching services and Sunday school will be suspended during the month of August. The Sunday evening meetings held by the Senior Y. P. C. U. will continue the same as usual.
 Elizabeth Thomas and her friend, Mrs. Walter Pillsbury of Neponset, Mass., came last week Wednesday to visit Mrs. Vernon E. Ellingwood and other friends for a week or so.
 Edgar L. Wood, who moved his family to West Paris this spring, has returned to work for L. W. Andrews & Sons at South Woodstock. He visited friends here a few days last of the week. His family will move to South Woodstock in a week or two.
 Mrs. E. B. Stetson and two children accompanied her grandmother, Mrs. Usher, who has been here visiting several weeks, to her home in Westbrook last Saturday. Mr. Stetson will be gone visiting relatives there and at other places for two or three weeks.
 Karl Hayes has just returned from a two weeks' visit to Portland with his aunt, Bertha Emmons.
 Loraine F. Willis is helping his brother Frank finish up his sawing job at his mill, a mile or two above here.
 Mrs. Wallace Mason of Gorham, N. H., and Clarence Mason of Marshalltown, Iowa were the guests of Mrs. Sarah Curtis, Saturday.
 Earle Adams and Warren Cookson were home over Sunday. Warren is clerking in Foster, Avery & Co's., men's furnishing store in Portland.
 Mrs. Freda Perry passed her 60th birthday, Tuesday. She had a good number of gifts and remembrances which made her feel sixty-nine years young.
 L. F. Willis rode home from East Waterford, Sunday, with Henry Rolfe and family in an automobile and all spent the afternoon at Loraine F. Willis'.
 Mrs. Frank Briggs and little daughter Beryl, who have been spending several weeks with her mother, Mrs. Sarah Curtis, have returned to their home in Portland.
 The Paris Mfg. Co., have nearly completed building a barn, 40x44, on the bank of the river near the factory, which will accommodate 16 horses. W. H. Emery is superintending the job.
 The W. C. T. U. will hold their next regular meeting at the Free Baptist church, Thursday afternoon, Aug. 5th. It will be a mother's meeting to which everybody, fathers as well as mothers or those who are not fathers or mothers are cordially invited to come. An interesting program of selected readings from good experienced writers and a question box of mothers' problems accompanied with music is being carefully prepared.
 The lawn party held by Onward Rebekah Lodge, Tuesday evening, on David Emmons lawn was a decided success. The day preceding it was very warm and the evening clear, cool and refreshing. The lawn was surrounded with Japanese lantern decoration. The entertainment consisted of readings by Mr. and Mrs. D. C. Curtis and one by Herbert Richardson. Most excellent accordion music was furnished by Ed Field, who played between the readings and for the games. Ice cream, cake and lemonade found ready sale. A good little sum was realized from it.
 Comic post cards with dogs on them have been in great demand of late, the occasion being a joke on one of our fun loving citizens, Charles Bartlett by name. It seems that friend Charles had been missing chickens from his henery and decided to catch the miscreant if possible supposing it might be a skunk, so straight-way set a trap. Late last Friday night he was awakened by a great commotion in the direction of his henyard. He and his good wife arose to investigate. Imagine his surprise when he discovered that he had caught somebody's pet dog, who was howling for all he was worth. Mrs. Barton held the lantern while Charles attempted to loose him but found it too dangerous a job; therefore he pulled the staple and let him go, trap and all. Away went the dog, making a dash across the fields, toward Trap Corner, his master, Newie Rowe. The dog escaped serious injury and Newie had no trouble in removing the offending trap. Charles' boasted courage is a matter of question among his friends.
 Prepare Yourself for Business.
 The advertisement of The Shaw Business College in another column should appeal to those in need of a business education. A school which allows its students to attend on month and guarantees full satisfaction before payment is required must be worthy of patronage. Twenty-five years' continuous service in preparing young people for business, coupled with the privilege of personally investigating its merits before payment is required, has gained the confidence of the public.
 The forty-eight page catalogue, giving full details of its work, is to be had for the asking.
 Automobiles in Eden would be rather incongruous.
